Game With Palatine Sat. Called Crucial; Bulldogs Nip Sequoits

Antioch Sophs Got Revenge For Varsity Defeat By Taking Grant 33-6

Saturday night's game with Palatine at the Pirate grounds will determine whether the Antioch Sequoits will follow the successful path of last year's squad or become just an average team.

This was the opinion of Coach Paul Kessenich, who believes that if his men can develop team play, they have the ability to finish well up in the Northwest Conference standing.

The Sequoits dropped a heart-breaker to Grant 7 to 6 Saturday night before a Homecoming crowd bringing the season's total to two victories and two losses. Palatine has the same record after having lost to the Grayslake Rams at Grayslake Saturday afternoon 6-0.

The Rams now tie Glenbrook for first place in conference competition, having registered three straight shut-outs.

The Sequoits had a victory tucked under the belts until the last few minutes of the game with the Bulldogs. Antioch scored her touchdown in the second quarter on a 60-yard sustained drive culminating with Dick Sreth's plunge from the one-yard line to goal. A bad pass from center thwarted the conversion bid.

With time running out an alert Grant player grabbed a loose ball on the home 16 yard line and in-

Spring Grove Woman Stricken in Antioch Dies Later in Hospital

Stricken while shopping in Antioch Tuesday afternoon Mrs. Emma Robison, 65, of Oakwood Subdivision, Spring Grove, died an hour later in St. Therese hospital where she was taken by the Antioch Rescue squad.

Mrs. Robison was first taken to the office of Dr. James Kopriva who authorized her removal to the hospital where her attending physician from Spring Grove took charge.

Mrs. Robison was born in Chicago July 11, 1891 and moved to Spring Grove northwest of Fox Lake nine years ago.

Surviving are her husband, William N. Robison; two daughters, Mrs. Dorothy Diez, of Wooddale, and Miss Janette Robison, Spring Grove.

Funeral services will be held at 1:30 p.m. Friday at the Justen-Hamsher Funeral home, 12 N. Pistakee rd., Fox Lake. Burial will be in Ridgewood cemetery.

Salem Central Wins At Round Lake 27-7 To Play At Watertown

Salem Central's Falcons won their 13th straight game last Friday, beating the Round Lake Panthers there 27 to 7.

The week previous the Falcons won a bruising battle on their home field from Cedarburg by the score of 14 to 6.

Their hardest game of the season will be at Watertown tomorrow. Watertown is unbeaten this season, having had victories over LaCrosse Central, Beaver Dam, Port Washington, and Fond du Lac.

Coach Cliff Peterson, lacking weight in his squad, is relying on speed and clever ball handling.

In last week's game with Round Lake, the Falcons deviated from the usual fast running attack and took to the air. Quarterback Vince Getka's passes clicked for a total of 213 yards with Weber being on the receiving end most of the time for touchdown.

The half ended 20 to 7 and Coach Peterson began using his reserves in the second half. Bob Schroeder scored the final Falcon touchdown, taking up in the ground gaining where Weber, Art Perry, and Dean Schultz left off.

Featured in the Round Lake rushing attack was Olson who picked up 70 yards in 14 attempts.

Change Road Intersection
State Highway workmen are making a change in the intersection of Rtes. 132 and 59 west of Lake Villa taking out the curves from Grand Ave. to Rte. 59 so that the avenue will go directly across into a street in the new Fox Lake Hills subdivision. Just what the effect this will have on safety at the intersection remains to be seen.

Grade School P.T.A. To Hold Open House Next Monday Evening

Parents will be privileged to go to their children's classrooms where the teachers will present their programs and answer questions during the Open House of the Parent-Teacher Association at 8 p. m. Monday at the Antioch Grade school.

Refreshments will be served by the 7th grade room mothers headed by Mrs. Donald Gable and Mrs. William Ludford.

Tickets for the "Dance Theatre 56" and all professional musical revue to be presented Oct. 20 under the sponsorship of the P.T.A. may be purchased at the meeting.

Antioch Postal Survey Brings Recommendation For Home Deliveries

Large Business District is Offset for Lack of Population

A survey of Antioch made by Martin Cablik representing the regional office of the U. S. Postal Department at Chicago resulted in his recommendation that this village be given home delivery of mail. Postmaster Roy Kufalk said yesterday.

The recommendation has gone to Washington and the village should know before the end of the year whether the new service is granted or not.

The survey showed that Antioch has had a steady growth during the last five years and that the population has increased 500 since 1950, reaching 1803.

While home delivery is not usually given until a village has reached a population of 2,500, Cablik said that the large and prosperous business area which is unusual for a village this size, warrants the exception.

The vast trading area was also noted.

One big advantage is the fact that Antioch is compact and well built up, making foot delivery possible over much of the territory.

The survey was complete in that it set up the foot and mounted routes, located pick-up boxes and outlined the change-over in detail.

Wilmot - Lake Geneva To Battle Tomorrow; Panthers Beat Elks

After trouncing Elkhorn 27 to 6 in a Homecoming game Friday night, the Wilmot High Panthers turned their attention to their final home game of the season with Lake Geneva under the lights at 7:30 p. m. tomorrow. It will be a Dad's Night event.

Both teams have won two games and lost one, which means an evenly matched battle.

Wilmot's only loss in the Southern Lakes conference play this year was to Whitewater 28 to 13.

Other games ahead are at Delavan on Oct. 19, at Mukwonago on Oct. 26, and at Burlington Wednesday night, Oct. 31.

A strong defense enabled Coach Frank Bucci's men to stop the Elkhorn onrushes and at the same time

Final Registration To Vote Light In Village, But Heavy In Outlying Areas Murrie Informed

Registration for the privilege of voting in the November election was light in the Antioch precincts, but heavy in outlying areas Tuesday, according to Supervisor Lloyd Murrie.

"I haven't got a complete report yet," said Murrie, but indication is there was heavy registration in Channel Lake, Grass Lake, and Lotus School precincts, while in Antioch it was light.

Murrie accounted for this in the fact that most of the newcomers to Antioch townships are in the outlying areas. Many more of them waited until the last day to register.

It is estimated by county chair-

Homecoming Attracts Game Crowd Of 1,400; Laura Hansen Is Queen; Parade A Success

Safe-Crackers Fail At High School Try

Safe-crackers found the safe at the Antioch Township High school too difficult to open Sunday night and as the result got nothing.

The school, however, suffered the loss of both damage to the safe and broken windows which the burglars caused in getting into the building.

Police Chief Walter Scott said that the combination dial was knocked off and the hinges removed from the safe, but got no farther into the strong box. Glass windows were broken in a door leading to the office, and a door in the cafeteria through which the burglars evidently climbed.

The break-in was discovered Monday morning when the janitors opened the building.

Palatine, Glenbrook, Fenton in New League

The game Saturday night at Palatine probably will be the last football the two teams will play with each other.

Next year Palatine will become a member of the Tri-County Conference with Fenton, Glenbrook, North Chicago, Elmwood Park, and Lake Park of Meadville.

Antioch has yet to play its final game with Fenton, formerly Bensenville after having lost to Glenbrook. Two basketball games with each of the three teams retiring from the Northwest Conference are still to be played.

Wildwood New Village

Wildwood on Gages Lake Monday became simply Wildwood, Ill., an unincorporated village with a substantial post office served out of Grayslake as Rte. 2. Mrs. Elsie Micolitis, operating a children's clothing store on Rte. 45 has the postal substation. All mail now must be addressed to Wildwood, Ill. instead of Grayslake to reach the 600 families in the village.

Marred only by a loss of the football game the Antioch Township High School Homecoming last weekend was a successful event.

An estimated 1,400 persons attended the game and many remained for the dance.

Highlight of the dance was the crowning of the queen, Laura Hansen, escorted by Marty Bell, co-captain of the football team. The crowning was done by last year's queen Jill Camphausen and her escort, Jerry Meyer.

Court members were escorted by the members of the football team as follows:

Lou Seyfarth and Lonnie Christiansen, seniors; Toni Thomas and Terry Horton, juniors; Sandy Maier and Richard Behrens, sophomores; and Lynn Veenemeyer and Walton Rosquist, freshmen.

Honored at the dance as representing the earliest classes were Mr. and Mrs. D. E. Sheehan, graduates of 1929 and 1931. Latest graduates were Jackie Martin and James Scully.

The parade Friday night was unusually good. The seniors won the school floats division with their "Tonight You Belong to Me" entry; while the sophomore entry, "Blue Suede Shoes" won second. The G.A.A. float, "My Prayer" won third prize.

Maplethorpe's garage won first place in the business division; Loom Lake Service Station, second; and Leo Fox's Trucking, third.

Dennis Horton, driving his car backwards, won first place in the student car class. His brother, Terry won second place, and Ralph Anderson, third.

After the parade a bonfire and pep session brought the evening's activities to a close. The school band played several selections.

Jerry Huml, president of the Student Council, introduced as speakers, Richard Seyfarth, attorney and ardent Sequoit fan; Marty Bell, football co-captain with himself; Coach Paul Kessenich, and Richard Sreth, parade chairman, who announced the float winners.

Rescue Squad Aids Woman Rescued from Burning Residence

The Antioch Rescue squad gave first aid to and took Mrs. Ethel Sieberling to Victory Memorial hospital at Waukegan Friday night after she was rescued from her burning home on Rte. 83 at Rock Lake rd.

Mrs. Sieberling, referred to by Kenosha County authorities as Mrs. Miller, suffered first degree burns on both legs, her right arm and shoulder.

She was found unconscious in the bath room of her home by Trevor firemen who carried her to safety.

Chief Harry Dexter said Mrs. Sieberling suffering from a fractured wrist, apparently took some aspirin tablets, lighted a cigarette and went to bed. The authorities believe the bedding caught fire and Mrs. Sieberling crawled to the bathroom before being overcome by smoke.

Chief Dexter said this building had been burning for an hour. The building was formerly the Barnard school which was converted into a residence. Loss was estimated at \$10,000.

Chamber of Commerce 9-9 Sale Day Tuesday Was Real Success

Cub Scout Leaders To Attend Pow Wow At Highland Park

Parents and leaders of Antioch Township Cub Scouts have been invited to attend the annual Pow Wow of the North Shore Area Council to be held Saturday, Oct. 20 at the Immaculate Conception school in Highland Park.

The leaders will have an opportunity to discuss problems, exchange ideas, and learn what is new in cubbing.

The big day will get under way at 1:45 p. m. and will be in session until 8 p. m. Parent Cubbers will be able to take courses in subjects from "How to run a Pack" to "How to weave a basket." There will be a section on Games, with leaders on hand to put the parents through their paces. Chairman of the Game section is Ed Trinko of 326 McKinley Lane, Libertyville.

The handicraft section will be set up with equipment for the Cubbers to use. In charge of this "learn by doing" department is Mr. Russell Knuth, 810 Glendale, Glenview.

Donald Hoffman of 1969 Prairie Ave., Glenview, will be in charge of ceremonies and entertainment. Assisting him in the song-and-stunt department will be Roert McNattin of 1420 Maple st., Wilmette. They will help Cub leaders to plan and execute everything from the simplest den ceremony to the more complicated Pack Induction ceremonies.

The section on Pack Administration will be under the direction of Ralph Worcester of 1225 Sherwood rd., Highland Park.

Methods of preparing and displaying exhibits will be handled by Norman Glendening of Rte. 2, Box

County Officials To Favor Retention of Town Tax Collectors

Elected officials of Lake county went on record as favoring retention of the Town Tax Collectors at a special meeting held here last night (Wednesday).

About fifty members of the organization, which includes supervisors, town clerks, justices of the peace, constables, assessors, town tax collector, and all county officials, were present and a motion was passed to defeat the county referendum which if passed, would eliminate the office of town tax collector, and transfer his duties to the county treasurer's office.

State Representative W. J. Murphy was the main speaker of the evening, and he discussed the State Blue Ballot, which provides for a change in state tax laws. Murphy opposes the referendum and urges a "no" vote on it at the November election.

Murphy also spoke against the referendum to eliminate Town Tax Collectors and said "take away from the people the home rule in the Town form of government and you take away his only chance to voice his own opinion, and his chance to help regulate local affairs."

Much emphasis was placed on strengthening the county organization in order to better fight attempts to weaken or do away with local government which are made annually.

Officers for the coming year were elected and Wm. W. Porter, Benton Twp., will be president for the year. George A. Stancliff, Vernon Twp. assessor was elected vice president; John P. Miller, Antioch Twp. assessor, was chosen secretary; Wm. E. Buhr, Ela Town Clerk, is the new treasurer, and John Froelich, Warren Twp. constable, is sergeant-at-arms.

Bristol Man Hurt When Car Wrecked in Antioch

William Langlo, 35, of Bristol, Wis., was taken to Victory Memorial hospital at 4:18 a. m. Monday by the Antioch Rescue squad for treatment of shock and face cuts as the result of an automobile accident.

Langlo lost control of his car on a curve at the Homer LaPlant home on Rte. 21 south of Rte. 173, hit a telephone pole, snapping it off at the base and smashing into a tree. He was booked for reckless driving.

Banks Closed on Friday
The Antioch Banks will be closed for the second day this week when they observe Columbus Day Friday.

Volume of Sales Believed to Have Been Largest Ever

Antioch was crowded with bargain hunters Tuesday as a result of the Chamber of Commerce 9-9 Day Sale. Many merchants report that the volume of sales Tuesday was larger than in the history of their businesses.

Harold Olsen, chairman of the promotion committee said today that comment by businessmen and shoppers alike was all favorable, and that because of the fine acceptance of the promotion, he believed that the Chamber would plan a like promotion for January, 1957.

The 9-9 day sale was conceived to bring new shoppers into Antioch, and advertising material was distributed to all the surrounding territory in an effort to acquaint residents of other communities with the advantages of shopping in Antioch.

The free bus, which is also a service of the local Chamber, was unable to handle the crowds of people who wished to come to Antioch Tuesday, and was forced to make extra trips to accommodate them. The shoppers free bus operates every Tuesday throughout the year.

Fire Prevention Week Draws Chief's Warning Of Dry Weather Peril

Less Than Half-inch of Rain in Area During Last Forty Days

Dry weather and the danger that it invokes called for double emphasis in the observation of Fire Prevention Week which is now in progress.

This was the reminder of Police Chief Edgar Simonsen as he and his staff conducted their annual inspection.

Antioch Township schools not only did well in their fire drill tests, but the buildings were all found in excellent condition so far as fire hazards are concerned, Chief Simonsen said.

Inspection of business places started today.

Two grass fires over the weekend were the only calls for the department. One grass fire was on Saturday at Indian Point and the other was at 3 p.m. Sunday in the Volk Subdivision at Channel Lake. Both were along highways and gave indication of careless handling of lighted cigarettes.

With only 26-hundredths of an inch of rain in the whole month of September and but one shower of .16 inch this month, the area has been rendered exceedingly dry, according to Cooperative Weather Observer Roy Kufalk. The freeze of Sept. 20—the temperature got down to 31 degrees above zero—killed the corn and other vegetation and what didn't succumb then, did Monday night when freezing again occurred.

While the pleasant fall weather was ideal for out of doors events, behind it lurked the danger of tinder-like inflammability.

The Antioch department was mentioned along with Silver Lake, Twin Lakes, Trevor and Wilmot departments by the Saturday Evening Post this week as having fought a fire which in May destroyed the four-story barn on the Russell Olson farm at Bassett, Wis. at a loss of \$192,000.

Timed for Fire Prevention Week the picture in color of the burning barn after the flames had a good start occupied a full page of the magazine. An account of the blaze was published under the title "Up in Flames."

The firemen were credited with saving the house, granary, corn crib, bull barn, and machine shed.

Roller Skating Party Planned

The Lake Villa P.T.A. will sponsor a roller skating party at Rollin's Wheels rink in Twin Lakes, Wis., on Thursday, Oct. 18.

Fifth through eighth graders are invited to ride school buses leaving the school at 6:30 p. m. and the rink at 10 p. m. Younger children may attend if accompanied by their parents.

L. D. Bever, of Route 3, Antioch, sales representative of the Moorman Manufacturing Company, spent Monday, Oct. 1, at the company's headquarters at Quincy, Ill.

YOGI BERRA'S DILEMMA

Despite a big surplus of baseball experts all over the country, no one can actually say for sure which team will win this year's World Series.

But one thing is for sure. Whichever team comes out on top, the World Series cut for each member of the winning team—about \$10,000—will be substantially shrunk when that bullpen ghost—the tax collector—gets his share.

Take Yogi Berra. He's a married man with two children. His annual salary from the Yankees is \$50,000. He receives extra income from endorsements, TV appearances, and so forth. Just how much that amounts to isn't our business, but Yogi's.

But, purely for the sake of argument, let's guess that his income totals \$75,000.

If the Yankees win the Series, Yogi will be handed a check for about \$10,000. Yet, sad to relate, it won't really be \$10,000. The Internal Revenue boys—according to a well-informed estimate—will take about \$6,500.

So, as a reward for helping to win the Series Yogi would be only \$3,500 richer, not \$10,000 richer, as most of his fans believe.

It's sad but true.

Our present income tax system places a penalty on success . . . on winning.

It places a penalty on extra talent, extra skill, extra effort. It discriminates against achievement.

People are asking: Can't this sort of unfair play be ruled out?

Sure it can . . . if enough people speak up.

Numerous plans have been suggested. Probably the most talked-about one at the moment is a proposal by the National Association of Manufacturers that discriminatory surtaxes be reduced over a five-year period. NAM bases its plan of America's continuing economic growth . . . growth which will provide more than enough Federal tax revenue to pay for the cost of the plan—and without rocking the boat, or raising anyone else's taxes.

In whatever manner the problem is solved, a solution will benefit not just big-league ball players like Yogi Berra—but just about everybody else in the country. That's because the same discriminatory tax burden which Yogi has to bear, applies also to the jobmakers of tomorrow—the men and women who invest in industry to provide for the continuing expansion of the nation's prosperity, and for the jobs of tomorrow.

JUNIOR FIRE MARSHALS

How safe is your home from fire?

A good question for National Fire Prevention Week (October 7-13)—especially if you don't have a Junior Fire Marshal in your home.

The Junior Fire Marshals are youngsters in the third through the fifth grades at Antioch Grade School. And this week they are busy as bees looking for fire hazards in their homes as the start of a new year-round school fire prevention and safety program, sponsored locally by the Loren D. Sexauer Agency and nationally by the Hartford Fire Insurance Company.

If you can't answer "Yes" to all of the following questions based on the Junior Fire Marshal Home Report, your home is not as fire-safe as it should be. See how you would rate as a Junior Fire Marshal.

1. Do you remove old newspapers, broken furniture and the like regularly from attic, garage and basement?
2. Is paint stored in tightly-covered metal containers away from heat?
3. If you burn trash, do you burn it in a wire mesh or suitable incinerator?
4. Do you refrain from smoking in bed and do you always make sure your cigaret is out before you leave it?
5. Do you avoid keeping flammable liquids stored in the house?
6. If you are ironing, do you unplug the iron cord when you go to the door or to answer the telephone?
7. If you use an oil mop, do you hang it in a well-ventilated place?
8. Are all electrical cords on appliances in A-1 condition?
9. Are extension cords out in the open—not over hooks, under rugs, through partitions or doorways?
10. Do you "know" that you are using the proper size fuses in your fuse box?
11. Is your fireplace covered with a metal fire screen?
12. Has your furnace or other main source of heat been checked for wear and general working condition within the past year?
13. Do you keep ashes from the open fireplace

Wilmot

Mrs. Herman Frank, Correspondent
Tel. Trevor 2752

Mrs. William Harms, Mrs. Marlin Ehler and Mrs. Herman Frank called on Mrs. Peter Van Slochteren at the Kenosha hospital Thursday where she underwent a major operation Wednesday.

Percy Mizzen accompanied Mr. and Mrs. Wayne Mitchell of Kenosha to Madison Saturday to visit Mrs. Percy Mizzen who is seriously ill at the Madison General hospital.

Mrs. Robert St. John was a patient at the emergency hospital, Milwaukee, for a few days.

Mr. and Mrs. Andy Beath, Vienna, Va., were Tuesday overnight guests of Mrs. Paul Ganzlin.

The W. S. C. S. Sewing club met Thursday at the home of Mrs. Paul Ganzlin.

Mr. and Mrs. George Higgins and Mrs. Ella Hoffman spent Sunday with Mr. and Mrs. Arthur Wright, Milwaukee. Mrs. Hoffman remained for an indefinite time.

Mr. and Mrs. George Higgins called on Mrs. Lizzie Benedict at Bristol Sunday. Mrs. Benedict has been ill.

Mr. and Mrs. Harry Christensen, Genoa City, spent Saturday evening with Mr. and Mrs. George Higgins. Mrs. Paul Ganzlin and house

or furnace in a covered, hole-free metal container? Are portable heaters kept away from curtains, drapes, and walls; filled outside of the house and checked regularly for leaks and cleanliness?

15. Have you and your family planned exactly how you would escape from each room of the house if fire should cut off one or more exits?

16. Do you know where the nearest Fire Alarm Box is located? And have you checked to find out how to report a fire in your home quickly, either by using the alarm box or the telephone?

Black Mark

President Eisenhower, in proclaiming Farm Safety Week, pointed out that "there were more accidental deaths among farm workers last year than occurred among the workers of any other major industry." He added that "in nearly every case human failure is associated with this appalling loss of life."

Numbers of manufacturing industries have greatly reduced their accident rates even while greatly increasing production. They have done that by intelligent, day-in-and-day-out emphasis on safety. Agriculture can do the same thing.

For example, many accidents are connected with the use of mechanized farm equipment—equipment that is as essential to modern farming as a lathe is to a machine shop. The equipment manufacturers have taken every possible step to make the machines mechanically safe. But they can't personally see to it that farmers maintain and operate the machines properly, and observe simple safety rules. They can't stop farmers from letting youngsters drive tractors—or from running machines on roads at night without adequate lights. They can't stop them from making structural changes and manufacturing attachments on their own hook. This is an old problem—it is almost an axiom that when a farmer decides he can out-engineer the equipment company engineers, a dangerous machine results.

Mechanization is one of farming's greatest boons. Agriculture's record of deaths and injuries is a black mark that simple common sense can erase.

* * *

Economic Highlights

Just about everyone has heard of the Federal Reserve Board. Most people probably know, in a vague and general way, that this body, which is entirely non-partisan and non-political, has great powers of control over the nation's money supply. It is equally probable, however, that many of us feel that the Board's policies have little if any influence on the life of the average man, and that they are of direct interest only to large financial and industrial interests.

That feeling—as numbers of people are now learning at first hand—is gravely in error. It is true that what the Board does in limiting or expanding the money supply has a powerful impact on business. It is also true that it has an equally powerful impact on individuals. A feature article in the September 14 issue of U. S. News and World Report tells the current story in clear and concise fashion.

For some time the Board has been pursuing what is known as a "tight" money policy. The reason, as U. S. News expresses it, "is to make money less abundant and more expensive and thus discourage borrowing. Borrowed money, when spent, adds to demand for goods and for labor—both sometimes in short supply. The result is pressure for rising prices that government officials want to prevent." In other words, it is an anti-inflation policy.

The U. S. News provides several illustrations of how "the pinch on money" will affect various people and groups as a practical matter.

The installment car buyer—a classification which seems to include the majority of us—is encountering some changes. There is plenty of credit available, but larger down payments are asked, and the number of months allowable for paying the balance is being reduced. That means larger monthly payments.

Home buyers, used to limitless credit at low rates of interest, will also find that things have changed. Larger down payments are required, and in many cases amortization time is shortened. On top of that interest rates generally are up—by a full one per cent.

A county, embarking on a school-building venture financed by bonds, finds the market less favorable. It has to offer a higher interest rate. Over a 20-year period the increased interest cost on a \$10,000,000 issue could amount to \$1,000,000.

Businessmen, needing money for inventories and plant expansion are in a similar fix. Interest rates are up, by about 1 per cent. On a big, long-term bond issue that may involve \$30,000,000 in additional interest costs.

Even the U. S. Treasury is not immune from the impact of "tight" money. In World War II days, it used to issue its 91-day bills—of which it sells \$1.5 billion worth a week—at an interest rate of $\frac{1}{2}$ of 1 per cent. Now the rate is 2.7 per cent.

A builder with plans for 200 homes may find loans both harder to get—and more expensive. In a competitive market, that darkens his profit potential.

So it goes. As the magazine puts it, the aim of the Federal Reserve Board is " . . . to supply an amount of money considered adequate for normal needs, but to keep the supply tight enough to discourage lots of undertakings that can be postponed."

guests, Mr. and Mrs. Andy Beath called on Mrs. Oliver Mathews at Antioch Tuesday evening.

The B. P. W. club will meet Monday at the home of Mrs. Martin Schenning, Silver Lake.

Mr. and Mrs. Andrew Craigmyre, Riverside, Canada, spent Sunday with Mr. and Mrs. Frank Kruckman. Mr. and Mrs. Alfred Rambow,

Antioch, and Mrs. William Scott spent Monday with Mr. and Mrs. Floyd Gyger, Sr.

The Gaby Eight met at the home of Mrs. Frank Haase, Camp Lake, Wednesday afternoon.

Mrs. Frank Ehler and Mrs. Donald Brown spent Saturday afternoon with Mrs. Peter Van Slochteren at Kenosha hospital.

High Fashion Styling In NEW AUTO SEAT COVERS

High fashion styling and glamorous designs, which have effected startling changes in American clothing, home furnishings and houses, have reached out to embrace automobile seat covers.

New styles in interior seat covers for cars just released by the Rayco Manufacturing Company, operators of America's largest chain of auto seat cover and convertible top stores, have transformed this functional and utilitarian item into a handsome, gay interior decoration.

Utilizing heavy-gauge clear plastic seat covers in an unusual and novel manner, Rayco has developed unique styling which promises to complement and glamorize even the richest new car interiors.

The latest seat covers are lavishly decorated in five different styles. Formal elegance with a feminine touch is reflected in covers trimmed with mink pompoms, rhinestones, simulated lus-

trous pearl clusters and ebony rosettes. A more masculine style is the one decorated with antique burnished silver coins.

While the clear plastic seat covers have been in use for some time, high fashion trimmings such as mink and rhinestones, represent a completely new departure. In order to avoid any seating discomfort, the decorative objects are applied along the top of the seat cover.

From a practical point of view, the new seat covers are easy to keep clean. A damp cloth will wipe away spots which would normally mean a stain.

The new seat covers are available for custom installation in all makes of cars, in Rayco stores throughout the country.

Picking Up After Litterbugs Costs Taxpayers Plenty

MINNEAPOLIS—It is costing the American public \$15 to \$50 a mile per year to clean up refuse strewn along the highways of our various states by messy motorists.

So serious has the problem become that 13 states have recently sharpened their penalties for this offense, according to a recent survey.

The survey, conducted through the cooperation of highway departments of 44 states, found that penalties for "litterbugging" vary from practically none in Idaho, which reports "law not very enforceable; litter increasing each year" to a maximum of \$1,000 fine or a year's imprisonment in Georgia, which reports "noticeable reduction in this type of offense" since the new law was passed.

Eight of the 13 states which have stepped up their penalties report that the slovenly type of motorist has become notably neater in his habits when faced with stiffer penalties for pig-sty behavior.

A number of other highway departments declare in the survey that under existing conditions litterbugs are difficult to catch, and even if caught, are usually let off with a small fine or a lecture by local justices.

South Carolina decided to do something about the defilers of its highways, and through close cooperation of highway maintenance and highway patrol departments, arrested 81 trash strewners and convicted 80 of them in the first 12 months of its clean highways program. "We are making some progress," says the South Carolina highway department.

Coffee Growers Have Ally in Ant

RIVERSIDE, Calif. — Many gardeners hold the belief that "the only good ant is a dead ant."

But a recent investigation into the pest problems of coffee growers in Colombia indicates that one member of the ant family can be used to keep another in check.

The ant that bothers Colombian coffee growers does not harm coffee plants directly. It feeds only on a tiny scale insect that infests the roots of certain plants.

To maintain a steady food supply, however, the ant removes the soil from around the plant roots and places the scale insect on them. Without this help, it is doubtful that if the latter pest would prove much of a problem, since its abundance is determined only by the food requirements of the ant.

So some coffee growers have been using insecticides to kill the ants and thereby slow down the root-destroying insect, known as the tea-drop coccid.

Stanley E. Flanders, University of California entomologist who has just completed a study of the problem, feels that growers would be wiser to encourage the spread of another ant, which raids the nests of its relatives and carries off the coccid.

Long Walk Long Held Top Form of Exercise

LOS ANGELES — That classic form of exercise—the long walk—was recognized even by the ancient Greeks as a tonic for healthy living.

So says Dr. Arthur Patch McKinlay, emeritus professor of Latin at the University of California, Los Angeles.

He reports that walking was described by the Greek writer, Pliny the Elder, as one of the "medicines of the will." Professor McKinlay explains, "You have to have will power enough to take them."

Pliny was not writing as an expert, but was merely passing on to his readers the findings of prominent Greek physicians, one of whom was Hippocrates.

Hippocrates mentions walking 40 times in one chapter on digestive diseases. He prescribes brisk walks, short walks, early morning walks, after-dinner walks, night walks.

Court Fine Takes Profit From Sale

GRAND RAPIDS, Mich. — A young man whose car was ordered off the road because of numerous mechanical defects had to pay \$18.35 fine and costs when he pleaded guilty to driving with faulty equipment.

After his appearance in Police Court, the man revealed he was on his way to the junk yard to sell the car when he was stopped by a police safety-check crew.

"I get \$20 for the car but with this fine, I'll have just about enough for bus fare home," he said.

We're Insured

NEW YORK — A recent nationwide survey shows that more than seven out of ten persons in the United States have some form of life insurance protection. They total 115,000,000 policy-holders out of the country's 165,000,000 population.

Experimental tests recently have shown animals that were given terramycin, ate less and returned an additional \$3.93 per head. In the test, the animals were given 75 milligrams of terramycin daily.

In the humane field of medical research the Eisenhower Administration has attained a new high by making available \$113 million in 1955 as compared to \$73 million in 1952.

Everywhere you turn...

it's STRIPES
STRIPES
STRIPES

Classic Striped Sportcoat by Cricketeer

The big fashion news this season is stripes. So our recipe for smart, masculine dressing is the classic striped sportcoat worn with solid color flannel slacks of medium shade. Some men prefer their stripes bold to command attention. Others like them on the subtle, more conservative side. Whatever your preference, we have it now in wide range of color combinations and carefully tailored the Cricketeer way.

HERE'S TODAY'S TIP from Johnny Hartford, your Junior Fire Marshal

Careless smoking habits and careless disposal of matches are America's No. 1 cause of fire—to be exact, 121,300 fires from this cause in 1955. To be on the safe side, matches and cigarettes should always be "chaperoned"—don't let them go out alone.

SEGALS

The Girl in the Lassie

As advertised in Mademoiselle

\$45

LASSIE JUNIOR

The girl in the Lassie . . . is delighted with her new Lassie—elegant in Melton cloth, and so rich in fashion detailing. See how the stylish cardigan neckline is beautifully displayed by the single breasted panel front, while both are augmented by the style perfect pocket panels. Ideal in soft grey or bold charcoal in sizes 5 through 15. And remember . . . the lining of every Lassie is guaranteed for the life of the coat.

Meetings held in Libertyville Temple.

Maybe you've already found that it's easier to roll out your pie crust on wax paper. To keep the paper from sliding, just wipe your table or counter with a damp cloth. Then the wax paper will remain firm.

There's nothing quite so satisfying as turning out your very own extra-special home baking. It's your individual touch that counts—and wins your family's praise.

And Ceresota certainly makes the difference. Good bakers always start with the basic fundamentals—and there's nothing more basic than Ceresota flour. Ceresota is UNBLEACHED and NATURALLY WHITE—because it is allowed to turn its own snowy white under nature's careful attention. But, despite its careful production, Ceresota costs no more than other flours. That's why economy goes hand-in-hand with fuller flavor, better texture, and finer appearance—when you bake with Ceresota.

How about this Fall "quick-and-easy" to bring the family back for more: Slice generous portions of canned corned beef hash, top each with a tomato slice, and sprinkle freely with grated cheese. Broil until the cheese is melted and the hash is thoroughly warmed.

And here's an old fashioned Brown and White Marble Cake that probably was one of your grandmother's favorites.

Brown & White Marble Cake

Ingredients for White Batter
1/2 cup shortening
1 cup sugar
1 1/2 cups sifted Ceresota flour
1 teaspoon baking powder
1/4 teaspoon salt
1/2 cup milk
1 teaspoon vanilla
4 egg whites
Ingredients for Chocolate Batter
1 ounce chocolate
1/4 cup sugar
1 tablespoon milk
1 cup white batter
1 1/2 tablespoons Ceresota flour

Cream shortening. Add sugar gradually. Sift together flour, baking powder, salt. Add alternately with milk to creamed mixture. Add vanilla; fold in stiffly beaten egg whites. Grate chocolate, add sugar and milk. Heat and blend thoroughly. To 1 cup of white batter add chocolate mixture. Add flour. Put a layer of dark batter between 2 layers of white in a greased 9-inch tube pan. Bake at 350° F. for 45 minutes. Cool and frost.

Here's why Blue Chip GMC's cost less to own

It's no secret that GMC Blue Chip haulers consistently outperform their class.

Now read why they're also the lowest-cost trucks on anybody's books

Better gas mileage

High-compression engines teamed with high-efficiency gear ratios produce maximum fuel efficiency.

Balanced power trains

Transmissions, axles and power plants are matched. Teamed for specific needs, they're more than equal to the job.

Hydra-Matic* savings

Best-proved of all automatic transmissions, Hydra-Matic Drive prevents fuel waste, cushions shock-loading, cuts traffic time, saves tires, spares drivers. GMC is the only truck manufacturer with Hydra-Matic Drive in its full line!

Less down-time

Thanks to the truck industry's most advanced engineering, GMC Blue Chip repair needs are the lowest of all, according to accredited fleet records. GMC trucks stay on the job!

Worth more on trade-in

In better condition after five or six years' work—with their advanced styling that keeps them looking young—Blue Chip GMC's command top resale value. After writing off their original cost, they STILL absorb a big part of their replacement expense!

*Optional at extra cost

Record-Breakers in Their Class

GMC's F370, at 19,500 GVW, and the 450 at 22,000, are famous for fast-paced, low-cost work in the construction, city delivery and general hauling fields.

Come in and check on the real economy of a Blue Chip Buy!

HERE'S TODAY'S TIP from Johnny Hartford, your Junior Fire Marshal

Accumulation of burnable rubbish is one of the leading causes of fire. Don't wait for the fire department to carry it out for you. A good rule to follow: "If you haven't used it within the past year—get rid of it." Trash and rubbish were blamed for more than 56,000 fires in 1955.

New Households Set Record in Last Decade

The number of households in the United States increased by nearly 11 million in the last decade, an average of more than a million a year and by far the biggest rise for a 10-year period in the history of the country.

This extraordinary record is the result of a combination of factors in which the impact of World War II, high economic activity and personal income levels, and the expansion of savings and of retirement funds played major roles. Since the household is the nation's basic economic as well as social unit, the accelerated growth in household formation contributed much to the progress of the American economy over the past decade and is also a key element in future expansion prospects.

Figures recently made public by the U.S. Bureau of the Census show that there were more than 48 1/2 million households in March of this year. The comparable figure early in 1946 was about 38 million. Thus the number of households increased by some 10 1/2 million in the period. The record prior to the World War II period was set in the Twenties, when the number of households increased by about 5 1/2 million, or little more than half the 1946-56 expansion.

Outstanding in the latest household formation trend is the growing financial independence of the older part of the population. This is evident in the number of individuals, as distinct from family groups, who have established their own homes in the last decade.

Rheumatic Diseases Are Most Frequent

NEW YORK—The chronic rheumatism diseases far outrank every other chronic disease in frequency, affecting more than 10 million adults in the United States. Of those affected, an estimated 1,000,000 persons are disabled for a week or longer each year, 200,000 of whom are virtual invalids.

Rheumatoid arthritis, degenerative joint disease, and gouty arthritis are the more serious rheumatic diseases. The majority of cases, however, do not have involvement of the joints but suffer from a variety of conditions involving the muscles and nerves.

Despite the high incidence and high disability toll of the rheumatic diseases, they are a minor cause of death and have relatively small effect on longevity.

Progress in the treatment of rheumatic diseases is noted in recent years. Encouragement is seen in the stimulation of research by the discovery of ACTH, cortisone, and other substances now used in treatment of various forms of the disorder, and in the advances in rehabilitative procedures for arthritis victims.

Air Travel Is Far Safer Than in Past

NEW YORK—Despite the alarm created by recent disasters, safety in travel on United States scheduled domestic air lines has progressed to the extent that the fatality rate per 100 million passenger miles is less than one-tenth what it was 20 years ago.

For the years 1953 through 1955 the passenger fatality rate on these lines was only 0.55 per 100 million passenger miles, compared with a rate of 5.87 for 1933 through 1935, according to computations derived from Civil Aeronautics Administration data. The number of passenger miles flown in 1953-1955 was about 80 times that of 1933-1935.

The international operations of United States scheduled air lines have become much safer. In the 1953-55 period there were only four passenger deaths on such flights, which is equivalent to a fatality rate of 0.30 per 100 million passenger miles. The safety record of the United States scheduled lines is much better than that for scheduled foreign lines.

In recognition of increased air safety, life insurance companies liberalized their underwriting practices for persons using scheduled air transportation.

Radio-Active Food May Aid Deficiency

BERKELEY, Calif.—Radio-active food may help solve problems of iron deficiency, which is prevalent among infants and causes anemia.

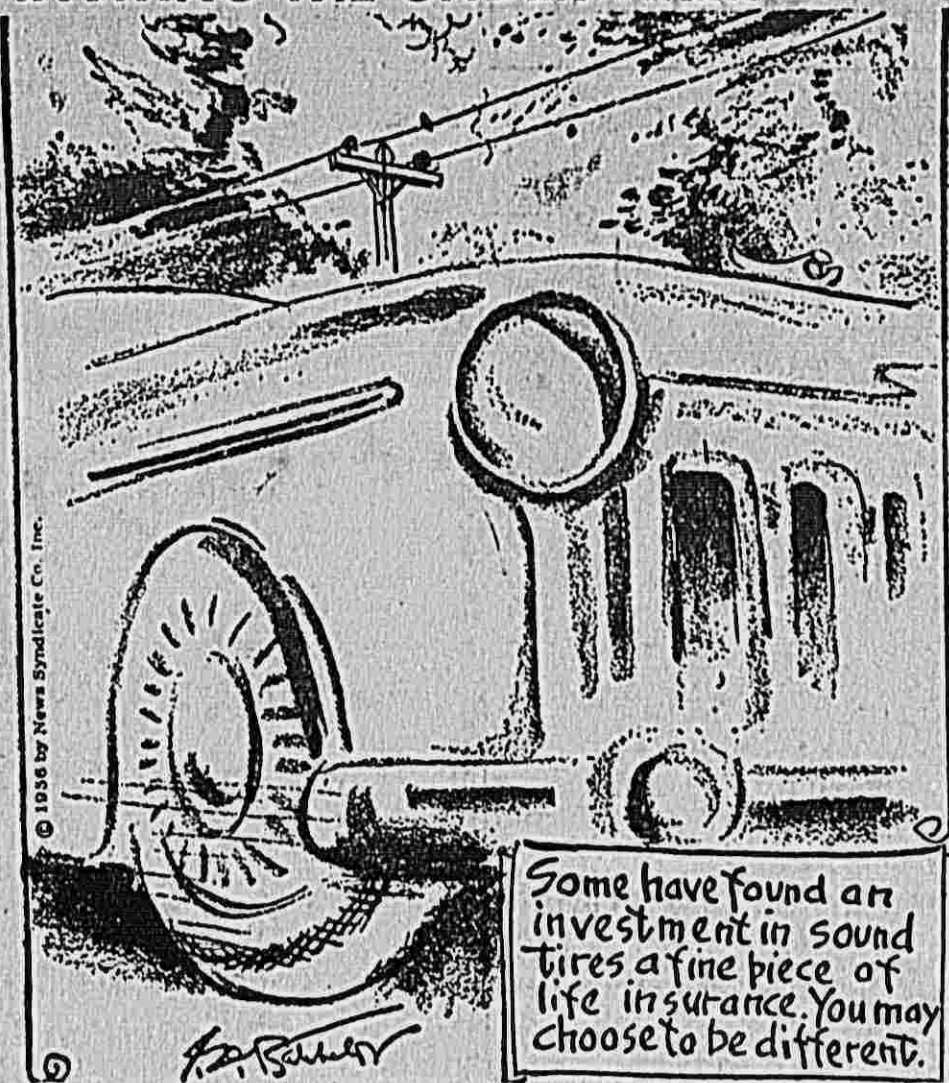

Dr. Jeanette Schulz, who is conducting the study, injects hens and cows with harmless amounts of radioiron. It shows up in trace amounts in eggs and milk. Radioiron is also added to baby cereals.

After the food is eaten the iron absorption can be traced.

Full House
CAMBRIDGE, Ohio—A drive-in theater has a weekly "buck night" on which every vehicle is admitted for a dollar, regardless of the number of persons it carries.

One night, a farm tractor pulling a hay wagon with 69 persons aboard was admitted—for the special price of \$1.

INVITING THE UNDERTAKER-

Winter rye seeded after mid-August is probably the best bet for an emergency pasture seeding.

The success of a grazing system and feed production program depends largely on the correct selection of seed. Choose seed best adapted to your particular soil and climate zone.

SOCIETY EVENTS

Miss Dorothy S. Hall Becomes Bride of W. L. Westgard

Miss Dorothy Sylvia Hall of Chicago, daughter of Mrs. Sylvia Innis Hall, became the bride of William Lee Westgard, son of Mr. and Mrs. Willis L. Westgard of Antioch, at a double ring candlelight ceremony at 7:30 p. m., September 15, at the Antioch Methodist church. The Rev. Jesse E. Firestone of Woodstock performed the ceremony.

Large baskets of white chrysanthemums and white gladioli adorned the altar.

The bride, escorted by her brother Laurence, who gave her in marriage, wore a princess style gown of silk shantung. Tiny pearls adorned the neckline and matched the beads used to form the crown from which fell waist length nylon tulle veiling. She carried a white orchid surrounded by small white stephanotis.

Mr. and Mrs. W. L. Westgard

Miss Carolyn Carlson of Skokie was her maid of honor; Mrs. Daniel Lowe of Chicago and Miss Sandra Swanson, cousin of the bridegroom, of Minneapolis, were bridesmaids. Wearing sheath style gowns of egg-shell satin, their head bands with nylon veils were made of matching satin and trimmed with tiny pearls. They carried bouquets of pink mums and asters.

Richard Westgard, brother of the bridegroom, attended him as best man; ushers were Thomas Mathews of Lincolnwood and Daniel Lowe of Chicago.

A reception and buffet supper followed the ceremony at the home of the bridegroom's parents, on Petite Lake.

Mrs. Hall, mother of the bride, wore a mauve crystallette dress with matching accessories. Mrs. Westgard, mother of the groom, wore a cocoa brown linen dress with matching accessories. Their identical corsages were a single large white chrysanthemum.

Preceding the wedding a rehearsal party was given Thursday evening at the Nineteenth Hole.

W. S. C. S. Meetings

The various Circles of the Women's Society of Christian Service of the Methodist church will meet as follows:

Mrs. Wm. Petty, Mrs. Wm. Frey, and Mrs. Sam Ries Circles will meet Wednesday, Oct. 17 at one p. m. at the home of Mrs. Wm. Petty.

Mrs. John Wagner and Mrs. S. Boyer Nelson Circles will meet Wednesday, Oct. 17, at one p. m. at the home of Mrs. Wm. Jorgensen, Antioch Hills.

Mrs. O. R. Kresse, Mrs. Louis Biel and Mrs. Herman Grenzmann Circles will meet Wednesday, Oct. 17, at one p. m. at the home of Mrs. Louis Biel.

Mrs. Robert Wilton Circle will meet Wednesday, Oct. 17, at eight p. m., at the home of Mrs. James Brusk.

GARDEN CLUB WOMEN ENJOY FALL TOUR

Ten members of the Garden Section of the Antioch Woman's Club spent Monday at the Morton Arboretum, near Lisle, enjoying fall beauty. The 11 acres of vegetation was founded in 1921 by Joy Morton, son of J. Sterling Morton, originator of Arbor Day. There are more than 4800 species in the living plant collection with plants labeled in their common and scientific names.

The women also visited the administration building housing an herbarium and a library.

Mr. and Mrs. Earl Arthur and Mrs. Lucille Arthur will leave tomorrow for an air tour through Texas and California to visit their son, Robert, who resides at Whittier, Calif. Mrs. Lucille Arthur will remain in California to make that state her home.

F. W. Lagerholm, of the Public Health Council, was guest speaker at a meeting of the Emmons school Mother's club Monday evening. Plans were made for Halloween pot-luck party for school children and their families. Hostesses for the evening were Mrs. Robert Garland and Mrs. William Alm.

Two former Antioch High School football coaches were back to the campus Saturday for Homecoming and to see the team perform. They were Richard Scott and family of Sycamore who spent the week-end as guests of Miss Carol Bean, and M. R. Krusan and Mrs. Krusan of Avon who were guests of E. W. Edwards and family.

WOMEN OF THE MOOSE INITIATE THREE OCT. 4

Forty-eight members of the Women of the Moose participated in the initiation of three new members at services in the Moose home, Oct. 4.

Marie Crifosi and Lorraine Stowell were sponsored by Bernice Kolar, and Mrs. Joy Proeme was sponsored by Alice Young.

The meeting was dedicated to Margaret Roof who is leaving for California. June Myers, graduate regent, will receive the coveted Green Beanie in recognition of her achievement award.

Mooseheart committee chairman, Kit Avery, introduced Mrs. Ben Noble who gave a talk on friendship.

Refreshments were served by Mooseheart committee, Kit Avery, Mildred Gillum, Blanche Horton, Alma Cole, Belle Grunow, Darlene Roblin, and Betty Horton.

Co-workers were asked not to forget gifts for the Moosehaven and Mooseheart Christmas gift march which have to be sent in this month. Canned food for the basket is also asked.

St. Peter's Altar and Rosary Society will hold its next meeting on Monday, Oct. 15 at eight o'clock in the school hall. All the ladies in the parish are invited to attend. Mrs. Theodore Frank of Waukegan will be the guest speaker. Her subject will be "The Women and Children of Egypt." Hostesses for the evening will be the Channel Lake Study Club; Mrs. Ruth Peters, Mrs. John Cahill, Mrs. Leroy Frank, Mrs. William Hynek, Mrs. Marshall Haydon, Mrs. M. Beckman, and Mrs. Joseph DeStefano.

Mr. and Mrs. Donald Gaston and children Judy and Ralph spent the week-end in Ottawa the guests of Mrs. Gaston's parents, Mr. and Mrs. Gordon.

HOME AFTER VISIT IN IRELAND

Mrs. Mary Golden and Mrs. Alice Harvey of Antioch and their sister, Mrs. Bessie Mostyn of Chicago, returned home recently after spending five weeks visiting their brother and other relatives in Mayo County, Ireland.

Mrs. Lillian Woods, associate matron of Antioch chapter Order of Eastern Star accompanied by Mesdames Lillian Gaa, Harriet Davis, Martha Hunter, Anne Heath and Emil Kirschbaum, attended Grand chapter held at Medinah Temple, Chicago, last week.

Mr. and Mrs. Irving Elms returned home recently after spending a few days at Rochester, Minn.

HOSTESSES AT BRIDGE-LUNCHEON

Mesdames Howard Smith, Emma Simons and Louise Murrie entertained at a twelve-thirty luncheon and bridge party Thursday at the Nineteenth Hole.

O. E. S. PAST MATRONS HOLD ANNUAL DINNER-MEET

Members of past Matrons of Antioch Chapter held their annual dinner and meeting Tuesday evening at the Nineteenth Hole. Dinner was served at six-thirty followed by a business meeting and bridge games.

CUB SCOUTS TO HOLD BAKE SALE, SATURDAY

Members of Antioch cub scouts Pack No. 92 plan to hold a home bakery sale at the Ford Garage show rooms Saturday, October 13, beginning at 9:30 a. m. Donations from all will be greatly appreciated by the boys.

Mr. and Mrs. Donald W. Anderson, plan to leave Antioch Monday for a vacation and trip through the West. They plan to visit Mr. and Mrs. Ernest Mount, at their home in Dentonville, Ark. The Mounts are former residents of Antioch.

Mr. and Mrs. Harold Young, proprietors of the "Merry-Go-Round" bakery left Sunday for a two-week vacation in Sterling, Virginia and Ft. Lauderdale, Florida.

Mr. and Mrs. Richard Workman and Mrs. Richard Workman, Sr. of Mountsville, West Virginia, were guests of Mr. and Mrs. Walter Brown the past week.

Will Plan Music Festival

Music teachers of the Northwest Suburban Conference meeting in Antioch next Tuesday afternoon will plan the spring music festival and select the band and chorus directors. The teachers will meet with the principals at their regular monthly meeting.

Parents of Son

Mr. and Mrs. Alfred Carlson of Norfolk, Va., became the parents of a son, Michael Edwin, on Sept. 18. Mrs. Carlson is the former Adella Rentner, daughter of Mr. and Mrs. Henry Rentner of Antioch.

The Lions Club met at Our Country Club near Wilmet, Wis., Monday.

Mrs. Lester Holt Will Discuss Cook Books

"Old Cook Books" will be discussed by Mrs. Lester Holt for the Antioch Woman's Club when it meets at 1:30 p. m. Monday in the Scout House. Representative W. J. Murphy will also be present to explain issues involved in voting on the township tax collector. A board meeting will be held at 11 p. m.

Mrs. W. J. Murphy will head the hostess committee, assisted by Mesdames Clair N. Dunbar, Ernest Brook, John Wagner, Hedley Simons, Norvin Stoffel, Edward Gressens, Earl Hays and Ernest Simons.

Pvt. Robert E. Cain

Fort Dix, N. J.—Pvt. Robert E. Cain, son of Mr. and Mrs. Milburn C. Cain of N. Main St., Antioch, is undergoing advanced Infantry basic training at this vast military installation in conjunction with the Reserve Forces Act. Private Cain completed his first eight weeks of basic training at Fort Leonard Wood, Mo. Under the RFA program, Pvt. Cain will serve six months of active duty training and seven and one-half years in the Ready Reserves. (U. S. Army Photo)

Frank G. Hough Chorus To Sing at Lake Villa

For the benefit of the Lake Villa P.T.A., the Frank G. Hough Chorus of Libertyville will present a concert at 8 p. m. Friday, Oct. 26, in the school gymnasium.

Under the inspired direction of Al Carlquist, this choral group will sing familiar, humable music in a professional manner. Members of the chorus are employees (or their families) of the Frank G. Hough company.

The Lake Villa P.T.A. is eager to finance several worthwhile projects for the school. They hope parents will donate \$2 for this benefit, which will entitle them to two adult and one child's admission.

Night Classes Have Openings

Adult evening school registration, sponsored by the Antioch High School is nearing completion. Citizens of the Antioch community who are interested in the Adult Evening School Program are encouraged to enroll as soon as possible. Classes are still open to students and additional registration will be taken next week in accordance with the following schedule: Spanish - Tuesday, Woodshop - Monday or Wednesday, Homemaking - Tuesday, Driving Training - Art - Shorthand - Typing - Monday. All classes meet from 7:30 to 9:30 P.M. and courses will be discontinued if they do not have the necessary 10 students registered.

Cub Scout Meeting . . .

(continued from page 1)
276, Ingleside. Glendening will have exhibit tables set up for study and observation. Glendening also will be in charge of the midway which will feature some of the various cub games.

The Physical Arrangements Chairman of the Pow Wow is Mr. Edward Brown, Jr., 1633 Beverly, Highland Park.

Mrs. Edward Brown, Jr., 1644 Beverly Ave., Highland Park, will head up a special section for Den Mothers on typical Den meetings. The General Chairman and coordinator for the entire Pow Wow is Mr. Donly Wilder, 1478 Oakwood Highland Park.

The North Shore Area Council of Boy Scouts includes New Trier, Skokie Valley, Lake Shore and Northwest Districts. Parent cubbers from every district will attend the Pow Wow. Chuck Gribble, Northwest District Executive, will be in charge of registration, and Douglas Kindschy, New Trier Executive, is in charge of Pow Wow promotion and publicity.

The climax of the day will be on Italian spaghetti dinner served at 6 p. m. followed by a puppet presentation, demonstration, and audience-participation, show by the Evanston Junior League under the direction of Mrs. Henry Windsor III of 1334 Larrabee Lane, Northbrook.

Cub Scout leaders and interested parents are requested to make reservations in advance—either by contacting their cubmasters or by calling the North Shore Area Council Office in Highland Park. Reservations are due by October 15.

Marine Metalsmith

Sgt. William E. LaPlante, son of Mr. and Mrs. Edward B. LaPlante of Beach Grove Road, Antioch, is a metalsmith and a member of the Marine Air Group at El Toro Marine Corps Air Station, Santa Ana, California. LaPlante is a graduate of one Technical High School, Chicago.

Antioch Pony League Champs Get Trophies

The Antioch Pony League team was awarded trophies at the Moose Lodge Monday night. Refreshments were served by women workers of the Moose Lodge. The Antioch Pony League team won the 1956 championship for the Lakes region. Each player was awarded an engraved trophy in ceremonies conducted by the Moose Lodge which sponsored the team.

Olympic Collection \$44

A collection taken by the A Club of Antioch Township during the Homecoming game Saturday to help send the Olympic team to Australia was in excess of \$44. American amateur athletes are sent to the Olympics through contributions of the public and not through government expense as in the case of many countries.

IN MEMORIAM

In loving memory of our beloved son, Melvin Wohlfel, Jr., "Butch," who passed away two years ago, October 14, 1954. Two years have passed since that sad day.

The one we loved was called away. God took him home. It was His will. In our home he is fondly remembered.

But in our hearts he liveth still. Lovingly, Mom, Dad, Sisters and Brother

Wire Mill to Transport Guests to Open House Next Monday, Tuesday

Antioch area residents are invited to an open house of the American Steel and Wire Co. plant in Waukegan next Monday and Tuesday.

The company is not only extending the invitation but will furnish free transportation by bus.

The gates of the plant will be open from 8 a. m. until 5 p. m. both days. Special exhibits have been obtained and will be shown in an exhibition tent erected in the plant. There will be souvenirs and refreshments for all in addition to some 30 prizes. J. E. Brown, general superintendent, notified O. I. Onstad, secretary of the Antioch Chamber of Commerce.

The busses which will convey the guests, will leave Antioch bank corner at 9 a. m. and 1 p. m. The morning bus will stop at Lake Villa bank at 9:25; Deep Lake rd. at 9:35; and Gurnee Drug Store at 9:40, arriving at the wire mill at 10 a. m. The return trip will be made at 12 noon.

The afternoon bus will leave Antioch at 1 p. m., arriving at Lake Villa at 1:25 p. m.; Deep Lake rd. at 1:30; Wedge's corner at 1:35 p. m., and Gurnee at 1:40 p. m., arriving at the wire mill at 2 p. m. The return will be made at 4:30 p. m.

Tegelman Named Head Of Fire Department; Garland Treas. 35 Yrs.

John Tegelman was elected president of the Antioch Fire Department for his third term at the meeting of the firemen Tuesday evening.

George Garland began his thirty-fifth year as treasurer of the organization and Clarence Shultis added another term to his long service as secretary.

Charles Mapleshorpe was elected vice president and has the additional job of custodian while Otto Hanke will serve as sergeant at arms. Serving as delegate to the county convention for three years is Leo Keisler. Holdover delegates are Russell Stowe and Ray Toft.

The department voted to purchase a department flag, the design of which is to be selected later.

A travelogue on Alaska furnished by the Northern Truck Lines was shown and luncheon was served by a committee comprising Marvin Topper, Ray Toft, and William and Jack Vos.

The department will start its first aid instruction Monday with Charles Larsen and Herman Holbek of the Rescue Squad in charge. These instructions will cover a 10-week period and will prepare the men to give first aid in emergency.

Game with Palatine...

(Continued from page 1)

spired by this turn of fortune the Bulldogs rushed over. Bob Beine-man scored from the two-yard line on an end sweep after taking a pitch-out from Ronnie Madden, and Don Klein kicked the decisive point.

Both teams fumbled away scoring opportunities in the first half.

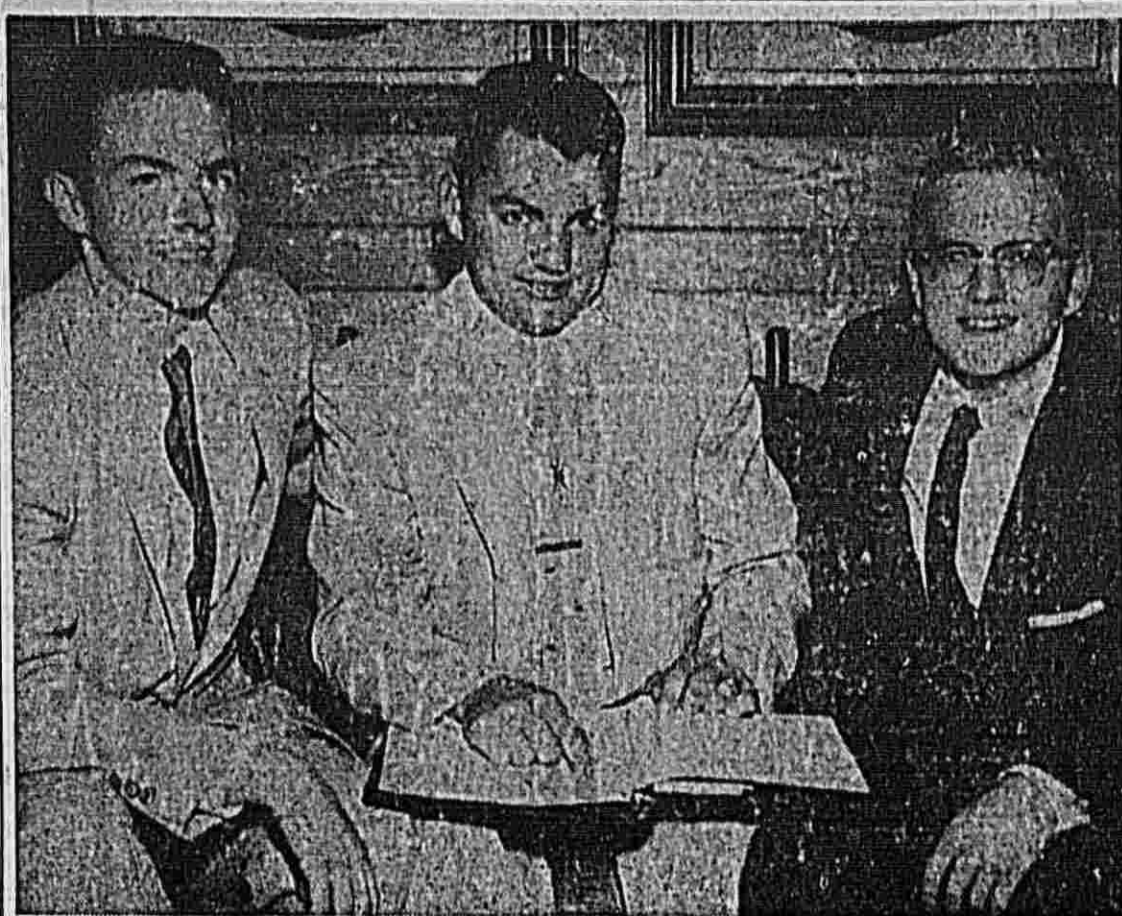

The two teams were fairly evenly matched as shown by the fact that while Antioch had a 9-8 edge on first downs, the Bulldogs had a 143-112 edge in rushing. The Sequoias gained 26 yards in four completions of nine pass attempts, but two of Grant's pass attempts failed.

Last year the Antioch team started out in the same fashion, losing close games and then began clicking, and this is what fans are hoping that this team which has similar ability will do.

The Antioch sophomore team will play the preliminary at Palatine starting at 6:00 p. m., got revenge against Grant for the varsity by defeating the Bulldog Sophs 33 to 6.

Touchdowns were made by Don Fyle, 2, Dick Gudgeon, 2, and Ray Teml. Three points were made after touchdown.

Plan Installation

Plans for installation of officers at Libertyville DeMolay Chapter, Libertyville, are being formulated by Gordon Volling, Jr., Counselor; Edward Gothann, Master Counselor; and David Ruud, Sr. Counselor. Volling and Ruud are Antioch boys, Gothann, Round Lake. The installation will be held at the Libertyville Masonic Temple, 456 Brainerd Ave., October 13.

Duck Hunting Season To Open Saturday In Illinois; Season Closes In Wisconsin

Duck hunting will become a popular sport for many persons in the Antioch area starting Saturday. From then until Dec. 21 guns will be booming during the daylight hours, especially in the Grass Lake area which is the popular hunting place.

Wisconsin already has ended its season which started Oct. 1 and closed Oct. 9.

Some of the hunters ran into difficulties with the law especially in nearby Camp Lake and Cross Lake. Most of them were taken to Kenosha Municipal court for their hearings.

Eugene Carlson, 25, Kenosha, was fined \$15 and costs Monday for hunting with an unplugged automatic shotgun at Camp Lake Saturday.

Jerry Fox, 18, Box 117, Salem,

and Raymond Harr, 20, Cross Lake, were fined \$20 and costs each Friday night for shooting 50 minutes after the legal closing time on Friday evening at Cross Lake.

LeRoy Reiche, 32, RFD 1, Camp Lake, and Clifford Friedle, 38, Chicago, drew fines of \$10 and costs for occupying duck blinds past the legal closing time. They were arrested a week ago at Camp Lake.

Warden Robert Winie also arrested four juveniles for shooting past the legal hour last week. Three were arrested at Camp Lake and one at Cross Lake and turned over to juvenile authorities.

The firing will start in Illinois at 5:31 a. m. Saturday, which is a half hour before sun-up. Firing must cease a half hour before sun-down. Each day the daylight time will be a minute shorter.

Bowling Instruction To Be Given Children At Antioch Recreation

Strikes, spares and splits will replace reading, 'riting and 'rithmetic for the youngsters of Antioch Saturday when a junior bowling clinic will be held at Antioch Recreation beginning at 10 a. m.

Conducting this class in the correct fundamentals of bowling will be Mary Jane O'Donnell, certified instructor of the American Junior Bowling Congress from Waukegan.

Mrs. O'Donnell's instruction clinic will cover a two hour period and she will be assisted in her work by Carl Gibson.

The proper fundamentals of bowling are covered in the clinic, teaching each boy and girl the proper swing delivery, stance and four step approach, through group instruction.

Following the group instructional period, each youngster will get three shots at the head pin and if they hit is once, will receive a card for a free game of bowling.

Following this part of the period each youngster will bowl a game, at which time Mrs. O'Donnell and her local assistants will give individual instruction to each youngster, as needed. At the conclusion of the school, all boys and girls who wish to join a junior bowling league, will be given an outline of the APBC program and a registration card.

With 46,000 of America's youngsters already enrolled as members, the American Junior Bowling Congress ranks as one of the nation's juvenile recreation groups.

CENSUS BUREAU
TO OBTAIN FACTS ON
SCHOOL ENROLLMENT

Questions on school enrollment will be asked in addition to the regular inquiries on employment and unemployment in the October Current Population Survey, according to Supervisor Guy A. Lutz of the Census Bureau's field office at Chicago, which will participate in the survey.

Similar questions on school attendance last year revealed that about seven million more persons, 5 to 29 years old, were enrolled in school or college in October 1955 than in October 1950. About 37.2 million persons 5 to 29 years old were enrolled at the beginning of the 1955-56 school year. This number represented a 23 percent gain over the 30.2 million enrolled five years earlier.

Kindergarten enrollment increased very rapidly (by 82 percent) between 1950 and 1955, the survey showed. Elementary school enrollment increased 24 percent, and high school enrollment 19 percent. College enrollment declined during the early years of this decade, but by 1955 it had increased to a level of about that of 1950.

The Current Population Survey will be taken locally and in 329 other areas of the country during the week of October 15. Information will be collected locally by Mrs. Eleanor Whitney of Chicago.

Annual Rat Killing Will Begin In Lake County October 10th

Along with the many campaigns being conducted this year, Farm Adviser Ray T. Nicholas is conducting a campaign of his own. The Farm Adviser's campaign is not designed to get somebody in, but to get the rats and mice out. The campaign the farm adviser is conducting is the annual one to rid the county of feed consuming disease spreading rats and mice.

One of the features of the campaign is the making available of a specially prepared rat bait through the co-operation of the U. S. Fish and Wildlife Service.

Many farmers and townspeople have inquired of the farm adviser regarding availability of the bait this fall. A supply of bait has been ordered and should be at the Farm Adviser's office in Grayslake by the second week in October. A sufficient quantity will be kept on hand during the fall and winter campaign so that it will not need to be ordered in advance, states Nicholas.

As soon as the supply is received mention will be made in this paper and on the farm adviser's radio program over WKRS Thursdays from 1:05 to 1:30 p. m.

Since the bait is used as a part of an educational campaign to get rid of rats and mice, it will be available at cost to anyone desiring it. Along with the use of bait, a general clean-up of the premises is required if the bait is to be fully successful.

Library News

Leonard Hawkins attended Fred Snite during seventeen years of invalidism and has now told the story of his life in the book, "The Man in the Iron Lung." The tragedy of this polio victim's life would be very difficult to read if it were not for his good cheer and spiritual serenity. The human ingenuity that made it possible for Fred Snite to do many things that would have otherwise been impossible gives added interest to the story.

Joseph Leeming seems to have an inexhaustible supply of entertainment material at his command. His recent book, "More Fun With Magic," is a fascinating collection of card, coin and mind-reading tricks for the aspiring your magician. The above two books were presented to the Antioch Township Library in memory of Richard Schweitzer.

"All about Small Gas Engines," by Jud Purvis, lives up to its title. It tells how small 2-cycle and 4-cycle engines are constructed, how they operate, what is likely to go wrong, and how to service and repair them. The many illustrations help in teaching the novice all he needs to know about gas powered motors. "All About Small Gas En-

Wilmot - Lake Geneva...

(continued from page 1)
take advantage of the Elk's misplays.

Wilmot scored first after Elkhorn fumbled on its own 18. Five plays later Dick Timmer sneaked across the one-yard line, and Irving Partenheimer ran for the extra point.

VanScotter Breaks Away

After an exchange of punts, Elkhorn's speedy Roger VanScotter ran 42 yards for the visitor's only touchdown. He tried to run for the extra point but was stopped short.

Wilmot scored another TD in the second quarter after Timmer passed 39 yards to Partenheimer on the Elkhorn's six yard line. Partenheimer tallied on the next play. Dutch Haase booted the extra point and it was 14-6.

Later in the second period Wilmot recovered a fumble on the Elkhorn 14. Five plays later Haase scored from the two, but missed the extra point.

The Panthers concluded the scoring in the third quarter after recovering another Elkhorn fumble, this time 31 yards from pay dirt. Five plays later Jack LaMeer circled end for 13 yards and a TD. Haase's kick was good.

Wilmot reserves played most of the remaining time. Later in the game, Timmer came back in and ran 75 yards for a TD but it was nullified by a clipping penalty.

Dick Bruenning, captain and guard, played another outstanding game for Wilmot. His jarring tackles accounted for two of the Elkhorn fumbles.

Haase led Wilmot's ground gainers with 43 yards in eight carries. Timmer completed four of eight passes for 81 yards.

gines' was given to the library in memory of C. Benjamin Drury.

The delightful fairy tales and folk tales from the four corners of the earth are an important part of every child's heritage. There are many fine collections of these tales and foremost among them is May Hill Arbuthnot's "Time for Fairy Tales."

In addition to the old favorites, Grimm and Aesop, Mrs. Arbuthnot includes modern fantasies by Dr. Seuss, Robert Lawson, and others. "Time for Fairy Tales" was given to the library in memory of Carl McMahon.

Youngsters Help In Fire Prevention

Fire chief Edgar Simonsen suggested today that parents reverse normal procedure—just for this week—and pay close attention to what youngsters in the third through the fifth grades are saying about home fire prevention and safety.

"In fact," says the chief, "if you don't have a child of that age in your own home, it might be a good idea to look one up and ask him a few questions."

Youngsters in these grades are joining in the start of a new year-round Junior Fire Marshal "Home Report."

The "Home Report", part of the first issue of a free new 12-page Junior Fire Marshal magazine being distributed in elementary schools throughout the country this week as a public service of the Hartford Fire Insurance Company, is a simple checklist for children to use in locating and removing fire hazards in their homes.

"The main cause of fire is carelessness," the chief emphasized, "and if we can teach school children how to recognize fire hazards, we will go a long way toward reducing the number of people who die every year from fire."

Inspection is a key to any successful fire prevention program," he added, "and the fire department welcomes this enthusiasm and help from the youngsters. If parents will heed the advice of their children—especially this week—everybody will be a lot wiser and safer."

Pointing to deaths of 11,500 persons and property losses of more than \$800,000,000 as a result of fire in the United States last year, Chief Simonsen added his personal endorsement of the Junior Fire Marshal program to that of the International Association of Fire Chiefs and other firemen's organizations.

The Junior Fire Marshal program is a nation-wide public service program for school fire prevention and safety sponsored by the Hartford Fire Insurance company and locally by the Loren D. Sexauer Insurance agency in cooperation with local schools and the fire department.

Tips on Traffic Safety

By
CHARLES F. CARPENTIER
Secretary of State

Some motorists are unaware of the pleasure they could derive from driving by simply attempting to get to their desired destination with the least amount of worry and trouble.

For instance, if the motorist will spend a little time in planning his trip so that the route is known in advance and will carefully observe signs and road markings, he will not lose time and cause himself trouble by becoming lost.

PLAN YOUR TRIP

Also, a motorist should never travel at a speed that is in excess of the maximum legal limit. His speed should be such that he will be able to stop his car under existing conditions before striking a person or running into something. A good rule to follow is to leave one car length for every 10 miles per hour of speed between your vehicle and the vehicle you are following.

If a motorist keeps to the right of the road except when passing he will not have to worry about another motorist suddenly zooming past unannounced on the right hand side of his vehicle.

These are but a few simple ways of getting more pleasure out of driving. Next week we'll have a few more tips on this same subject.

A copy of the completely new "Rules of the Road" booklet will be sent to you free upon request. Write to CHARLES F. CARPENTIER, Secretary of State, Springfield, Illinois.

OUT ON A LIMB

By Stumpy McCulloch

"Mr. Jones," the young feller said, "er-ah-that is, can I—will you—"
"Why shore, my boy, you can have her," Ol' Hannibal said.
The young feller gasped. "Have who?" he asked.
"My daughter. You want to marry her, don't you?"
"No, sir," the feller said. "I just wanted to know if you could loan me twenty-five dollars."
"Twenty-five dollars!" shouted Ol' Hannibal. "Certainly not! Why, I hardly know you!"

No tree farmer needs to be told why they call me Stumpy McCulloch! That's 'cause I talk so much about cuttin' short stumps! If you cut low stumps, you're savin' wood in the biggest part of the tree. And low stumps permit a truck to get around more easily in the woods—and that means wood don't have to be carried so far for loading!

Low stumps save wear and tear on a truck, too. If you skid your wood, high stumps will often hang up your logs—and a feller can waste a lot of time workin' the logs free. Besides, this ain't easy work, and it may damage a tractor or bruise a horse's shoulders. So cut those stumps short—it's a sign of good forestry!

Down in North Carolina, I hear, the Agricultural Extension Service of the State College is startin' a new program to help tree farmers learn more about how to market their timber! They're hirin' a timber expert, who'll travel around the state, tellin' tree farmers about present market outlets, grading systems, measurement methods, demand trends, pricing factors, and the like. The same thing is happenin' in many other states. And that's good news—'cause we all need to know more about how we can best market our trees!

Before you ship your logs, I've found, it's a good idea to make sure there aren't any nails or spikes embedded in them. Trees from fence rows and barnyards, especially, are apt to have old nails, horse shoes or other metal objects attached. Sometimes logs are even shipped with ax heads or wedges in them. All these objects can be mighty dangerous to the fellers at the saw mill or pulpwood mill. So keep an eye out for them!

"This is an ideal spot for a picnic," the gal said.
"It shore must be," said Young Zeke. "Fifty million insects can't be wrong!"

So long, folks! See you soon!

Four Lake Villa Men Complete Training

Above, (left to right) are James H. Fish, son of Mr. and Mrs. Jake Fish of Villa Avenue; Richard A. Goding, son of Mrs. Frances Goding of Allendale School; Phillip J. Wagner, son of Mr. and Mrs. Phillip G. Wagner of Grand Avenue and Paul D. Williamson, son of Mr. and Mrs. Paul M. Williamson of Route 1, Grand Avenue, all of Lake Villa, Ill., completed recruit training September 28 at the Marine Corps Recruit Depot, San Diego, Calif.

The 12-week course included instruction in all basic infantry subjects and the firing of all basic infantry weapons.

Upon completion of training, the new Marines report to Camp Pendleton, Calif., for further infantry training, or to one of the many Marine Corps schools.

ODDLY ENOUGH by WALDMAN

ALEXANDER THE GREAT HAD A SPEAKING HORN WITH WHICH HE COULD ASSEMBLE HIS TROOPS FROM 8 MILES AROUND! HIS HORN WEIGHED ABOUT 50 POUNDS AND WAS THE "LENGTH OF A LANCE."

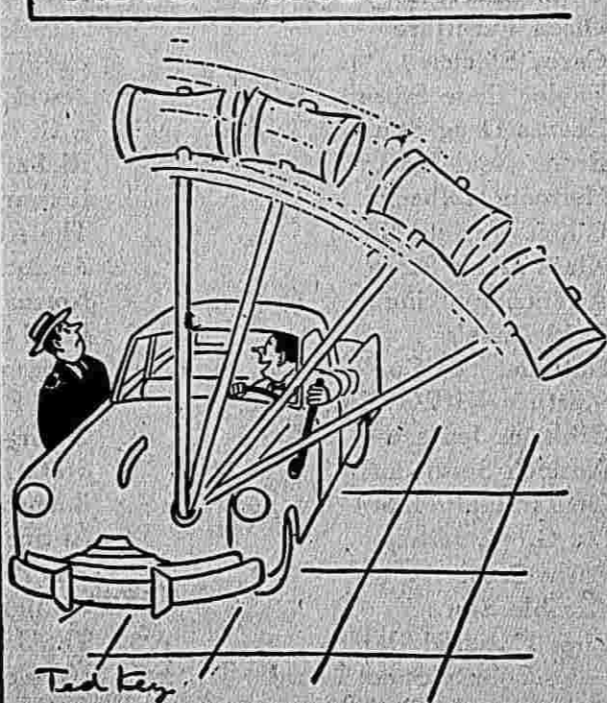

THE FIRST DICTATING MACHINE NOW IN THE SMITHSONIAN INSTITUTE WAS INVENTED IN 1841 BY BELL AND TAINTER, 26 YEARS BEFORE THE DICTAPHONE TRADEMARK WAS COINED. OUT OF THIS CRUDE PROTOTYPE GREW FIRST THE DICTATING MACHINE INDUSTRY AND LATER THE PHONOGRAPH INDUSTRY.

NEW DICTAPHONE DICTET RECORDERS WEIGH ONLY 2 POUNDS, 11 OUNCES, MEASURE ONLY 6 1/2" X 4 1/2" X 2". USE TINY TRANSISTORS AND BATTERY POWER. RECORD FOR A FULL HOUR AND CAN BE USED ANYWHERE.

The sermon of Rev. Robinson this coming Sunday will be "An Old, Old Problem." Other activities at the Lake Villa Community Methodist Church include: Junior choir rehearsal, Monday, Oct. 15, at 3:15 p. m.; Tuesday, Oct. 16, 8 p. m., meeting of all men of the church; Wednesday, Oct. 17, 12:30 p. m., the Martha Circle meeting, and at 7:30 the same evening Commission on Missions meeting; Thursday, Oct. 18, 8:00 p. m., Commission on Membership and Evangelism meeting. There is Sunday School every Sunday at 9:45 a. m. and a service of worship beginning at 11 a. m.

Mr. and Mrs. Jake Wallace celebrated their 25th wedding anniversary on October 5th. One hundred and twenty-five friends and relatives attended a party in their honor at the Lake Villa village hall. They received many beautiful gifts.

Mr. and Mrs. Carl Nader left last Monday for a month's tour of the west.

Mr. and Mrs. Clarence Blumenchain were Rockford visitors Friday evening. From there Mr. and Mrs. Roscoe Ross accompanied them to the wedding of their cousin, Miss Rae Reider to Robert Ross at La-Crescent, Minn., Saturday. They returned home Sunday.

Lenore McCord of Beloit College spent the week-end home with her parents and attended the Antioch High School homecoming on Saturday.

Mrs. Arthur Evans visited her daughter, Mrs. Robert Fryrear in Peoria this week. While she was there she had the privilege of seeing President Eisenhower. It was the first time in 100 years that a president of the United States visited Peoria.

John Perry is spending ten days in Michigan, hunting and fishing.

Mr. and Mrs. John Meyers, lifelong residents of Lake Villa, left October 3 to make their home in Los Angeles, Calif. Our best wishes go with them.

Walter Boss has broken ground

for his new buildings on Milwaukee avenue.

Helen Fish and Cecile Blumenchain were Waukegan visitors last Wednesday.

The Girl Scout and Brownie Cookie and Nut sale will be going on soon. Let's back these girls 100 per cent and give them an order when they knock on your door.

The Lake Villa band participated in the Antioch Homecoming Saturday evening. They made a wonderful appearance and our congratulations go to the children and their leader, Mr. Thala Rush.

STATE OF ILLINOIS EXECUTIVE DEPARTMENT PROCLAMATION

WHEREAS, The President of the
United States of America, has pro-
claimed the week of October 7-13,
1956 as Fire Prevention Week, to
teach and practice fire prevention,
and
WHEREAS, Enormous losses of
life and property can be avoided by
the diligent practice of fire preven-
tion measures, and
WHEREAS, Fire prevention pro-
gram observance should be the con-
cern of all our people, and
WHEREAS, It seems essential
that the people of Illinois give their
whole-hearted support to the ad-
vancement of these programs,
NOW, THEREFORE, I, William
G. Stratton, Governor of the State
of Illinois, do hereby proclaim the
week of

OCTOBER 7-13 OF THE PRESENT
YEAR, AS FIRE PREVENTION
WEEK THROUGHOUT ILLINOIS,
and do request the active support
and observance of the people of
Illinois in carrying out the objec-
tives of these programs.

IN WITNESS WHEREOF, I have
hereunto set my hand and caused
the Great Seal of the State of Illi-
nois to be affixed.

Done at the Capitol, in the City
of Springfield, this third day of
September, in the year of our Lord
One Thousand Nine Hundred and
Fifty-Six, and of the State of Illi-
nois the one hundred and thirty-
eighth.

HERE'S TODAY'S TIP from Johnny Hartford,
your Junior Fire Marshal

Misuse of electricity caused 94,100 fires in the
United States last year. To make your home a
safer place to live, make sure that all extension
cords are in the open - not over hooks, under
rugs, through partitions or doorways. Check cords on all electrical
appliances to make sure they are not frayed or worn.

Millions of Life Policyholders Use Income Plans

NEW YORK—Millions of American families now have at least a portion of their life insurance set up to provide income payments rather than lump-sum payments when benefit payments begin, says a recent report.

The income uses of life insurance have become so important a part of family financial planning in this country that the amount of policy benefits used to establish income plans this year will be 40 times the total so used in 1920, whereas aggregate benefit payments have increased 7-fold in these years.

During 1956, some \$800,000,000 of policy benefits will be set aside by policyholders or beneficiaries to provide future income, rather than taking lump sum settlement. During the past ten years, the aggregate of policy benefits used for income plans has added up to nearly \$7,000,000,000.

The income payments to American families from these accumulated funds are increasing steadily and now run about 90 percent of the amount of benefits set aside each year for the purpose. In 1920, the actual income payments under such plans totaled only about \$10,000,000; by the end of World War II they had grown to slightly under \$300,000,000; last year, they totaled \$720,000,000 and they are still growing.

While the flow of income payments varies widely from company to company, some companies report that as much as 60 percent to 70 percent of all their death and endowment benefits are paid under income settlement plans.

Polio Victim Stays Busy at Writing

MILWAUKEE—Arthur L. Koch, 29, a disabled polio patient has been without use of his arms and legs for almost four years, but it hasn't stopped him from entering some 75 writing contests and winning four prizes.

Koch sleeps in a portable chest respirator, but doesn't need it during the day when he does his writing. For typing, he uses an aluminum tube about 15 inches long with a mouthpiece at one end and a rubber thumb at the other. He can type from 15 to 20 words a minute.

When he wants to write, he has a nurse slip the filler from a ball-point pen into a perpendicular tube just above the thumb.

Koch finished his high school education in the Navy, is married and the father of two young daughters. Some of the prizes he has earned for his writing ability include a dresser set, won in a jingle contest aimed at getting people to do their shopping in drug stores, and tickets to a Braves' baseball game for writing 25 words on his favorite Brave—Gene Conley.

Sun May Become Main World Energy Source

UNIVERSITY PARK, Pa.—Eventually the world will have to depend on the sun as its main source of energy, believes Dr. Elbert F. Osborn, dean of the college of Mineral Industries at Penn State.

Dr. Osborn predicts that the world's supply of fossil fuels (coal, oil and gas) now being consumed at an alarmingly rapid rate, will be exhausted within several hundred years.

Even atomic energy, which will replace coal and oil as a source of power, is not inexhaustible since all supplies of uranium and thorium needed to produce atomic power may eventually be used.

This, Dr. Osborn says, may leave the harnessing of solar energy as the ultimate solution to the problem.

Pennsylvania, with its great supply of coal and as the site of the first oil well has played an important part in producing coal, oil, and gas.

Auto Seat Covers Subdued for 1957

CHICAGO—The trend is toward more subdued designs and colors in automobile seat covers and interiors.

And Howard F. Leopold, president of a seat-cover firm says it's the people's choice. "People want it that way," he says. "It's something like a change in women's fashions."

Forecasts for 1957 passenger cars indicate that interior styling colors will be more subdued, he said.

Green Haul

SAN BERNARDINO, Calif.—Two thieves with a green thumb made off with a 50-foot hedge, 3 feet high. Police said that a man and a woman went to the home of Lupe Padilla, dug up the bushes and loaded them into a truck. In answer to a neighbor's question, they said simply, "We have permission."

Not so, says Padilla, who asked police to look for the missing hedge.

DINING LUXURY COMES IN TIN CANS

Stockholders Amazed At Variety of Dishes That Come from Tins

PITTSBURGH, Pa.—When the stockholders of a large steel company spied the luncheon set before them on the occasion of their annual meeting, they gaped their surprise. The varied and exciting array of foods prepared was a sight few had expected for the occasion.

Even newspaper people present, veterans of many a press party, opened their eyes in wonderment. None was ever as sumptuous as this, they all agreed.

Amazing feature of the luncheon was the fact that it was prepared completely from 65 different canned foods. The luncheon was a feature of the annual shareholders' meeting of Jones & Laughlin Steel Company, who make much of the tin plate used in the canning process.

Tasty meats, exotic sauces, delicacies from every part of the world, many-colored fruits in delightful syrups, savories to delight every taste, drinks of many flavors, spices to tempt every pal—no one went home hungry that day. It was a dramatic demonstration of the vast possibilities canned foods hold for a housewife today—and all as near as her corner supermarket.

Gone forever are the humdrum meals once associated with cans. Ended are those days when families fell back on canned goods only when they couldn't get some other kind. Today there are riches in store for the food shopper—among the tinned specialties on her grocer's shelf.

The average family of four buys 888 cans of food in a year. A housewife can prepare scores of different and varied dishes to appease the appetites of youngsters and oldsters alike—good, wholesome, nourishing food that proper canning makes available all seasons of the year. And thanks to efficient large-scale buying and packing, canned foods represent the minimum tax upon her food budget.

More than 800 shareholders were present, besides newspaper people and other guests. One stockholder smacking his lips was heard to say, "That meal was practically an extra dividend!"

TOP Shareholders and editors move through the serving line to participate in the gala luncheon consisting of 65 different canned foods.

MIDDLE Visitors examine a display of samples of the various canned foods used in preparing the menu. Plenty of variety there!

RIGHT A guest looks over cards containing a total of 888 cans. This is the number of canned items used by an average family of four in a year.

WANT THE TRUTH?

Up to 6,000 traffic-accident deaths this year won't be "accidents" at all!

Forty thousand Americans will die in traffic accidents this year, according to the present mounting rate. And nearly six thousand of those deaths will be crimes—because of driver negligence—according to the FBI!

HERE'S HOW YOU CAN HELP STOP THESE TRAGEDIES

1. Drive safely and courteously yourself. Observe speed limits and warning-signs. Where drivers are careful and obey the law, deaths go DOWN!
2. Insist on strict enforcement of all traffic laws! Wherever traffic laws are strictly enforced, deaths go DOWN!

LaPlant Masonry beat Antioch State Bank all three games.

Adam's Lounge won two from Taylor's Shoe Store.

Red Arroy won two games from Antioch Laundrette.

Oil Truck Hooks and Damages Parked Cars

Two passenger cars were damaged when an oil truck hooked one of the parked cars and pulled it into the other as it passed them on Main st., in the heart of the business section Tuesday morning. No one was in the cars at the time.

The Filroy Oil Co. truck driven by John Julian Clark was preparing to pull into a parking place at the front of the Pantry at 914 Main st. when its rear bumper hooked the bumper of the 1955 DeSoto of Lillian A. Mate of Trevor, Wis., dragging it against the 1949 Nash of Eleanor Michael Lohman of R.F.D. 1, Bristol, Wis.

Both cars were damaged, but not too badly.

Clark had passed the cars once, but when a motorist backed out of a parking place, he backed the truck to let her out and it is presumed that he did not back straight in doing so. He didn't know he had hooked the parked cars until pedestrians shouted a warning.

Chill Autumn Nights Warn Motorists to Check Car For Colder Weather

It's time to get your car ready for winter driving, advises the Chicago Motor Club, as temperatures in some areas have already skidded close to the freezing mark.

By having their cars prepared now for cold weather, motorists will save time, trouble and often expensive repair bills, according to the Motor Club. The Club's emergency Road Service department said that one out of every six motorists in Illinois and Indiana is immobilized at some time each winter.

Weather records for the last six years show that freezing temperatures and snow have struck the midwest three times in the last week of October and four times before Nov. 5.

The Motor Club recommends that motorists have their cars winterized now to avoid delays at service stations and garages. The rush will start immediately after the first forecast of cold weather.

The Emergency Road Service department advises motorists to take the following protective measures before cold weather strikes:

—Drain and flush the radiator of your car; check all hose connections; tighten clamps and add standard brand anti-freeze solution.

—Check ignition systems—generator, voltage regulator and distributor points. Reset timing and clean or replace spark plugs.

—Test battery for full charge; clean battery terminals and tighten battery cables; replace worn out batteries and battery cables.

—Check the fuel pump. A faulty pump will fail to function properly and will waste gasoline.

—Apply lightweight winter grade

oil and grease. Be sure your engine and gears are properly lubricated.

Leave early, drive slowly and get there safely on roads glazed with ice or covered with snow, recommends the Emergency Road Service. Following are tips for keeping your car rolling through zero, ice and snow:

—Keep battery fully charged. Have it checked once each week.

—Keep gas line from freezing. Add eight ounces of grain alcohol or approved commercial equivalent to every other full tank of gasoline.

—Carry a shovel and bucket of sand, salt or cinders in the trunk of your car. An emergency abrasive will help get your car moving when parked at a sloping curb or on slippery ice. Do not park in standing water, for tires may freeze to pavement.

—Heat key to open frozen door lock. To prevent doors and trunk lid from freezing, wipe dry when wet.

—Keep electrical system dry. Drive slowly through water.

Injured in Car Crash

Mrs. Ruby Behrens, 39, suffered a hip injury last Thursday afternoon when her car and an auto of Joan Murrie, Russell, collided at Edwards and Rosecrans rds. Mrs. Behrens was taken to Victory Memorial hospital.

President Eisenhower and the Republican 83rd Congress have increased compensation and pension checks to about 3½ million veterans and dependents by at least 5 per cent.

No School Oct. 19

Antioch High School and the Antioch Grade school will not meet on Friday, Oct. 19 while the teachers are attending Section 1 of the Lake Shore Division of the Illinois Education Assn. at Zion.

A new long-range flood control program, Republican planned, to spot emergencies before they become acute and thus forestall disasters in chronically disabled areas, will save millions of dollars in property loss and alleviate human suffering.

Alfalfa is pretty greedy for plant food. Each ton of alfalfa you cut removes about 12 pounds of phosphorus and 45 pounds of potash. That means an annual top dressing of fertilizer is a necessity.

Consumer spending for civilian goods is now \$41 billion higher than it was in 1952.

College Will Be More Difficult, Educator Believes

UNIVERSITY PARK, Pa.—It's going to be more difficult for a student to get into college in the future and harder for him to stay there, says C. O. Williams, dean of admissions at the Pennsylvania State University.

At Penn State, and Williams notes the trend is national, freshmen applications alone are running 20 per cent ahead of a year ago but lack of facilities and space will hold the figure to last year's total.

In the opinion of Williams, the rise in numbers of youth reaching college age every year and the increase in percentage of boys and girls going to college will have the long-range effect of raising academic standards.

"This increase in competition," Williams points out, "makes good preparation more necessary than ever. And the responsibility is primarily the student's since the secondary school cannot do everything."

Williams believes good preparation in English is absolutely essential for the college preparatory student, no matter what his objective, whereas the student desiring to enroll in scientific, engineering or other technical courses must have an equally sound foundation in mathematics.

"College," the Penn State dean explains, "today is too big an investment from the standpoint of time and money for any student to take it lightly. Parents should make certain their children not only are well prepared, but have a real desire to further their educations. There no longer is room for the classroom dildar."

Stutterers Have Emotional Problem

LOS ANGELES—Children who stutter usually have emotional problems other than those caused by their speech difficulty.

This is indicated by a study completed recently by Dr. John P. Moncur, associate professor of speech at UCLA.

Dr. Moncur compared the emotional health of two groups of students between five and eight years old chosen from the Los Angeles school system. One group, consisting of 42 boys and 6 girls, were severe stutterers. The other group, also containing 42 boys and 6 girls, were non-stutterers. An effort was

also made to match the children's school placement and residential area.

He found that the stutterers averaged more than twice as many symptoms of maladjusted behavior as did the non-stutterers. Dr. Moncur believes that this confirms what most psychologists have long suspected—that the problem of stuttering embraces more than speech alone.

Young Children Can Take Allergy Tests

CHICAGO—Children under two years of age are not too young to undergo skin tests for allergy. In fact, the sooner procedures for diagnosing the cause of allergy are begun the better, three physicians report in the Journal of Diseases of Children.

Their study of children suffering from asthma, eczema, hay fever or hives, showed that the majority of children reacted to more than one food, pollen, or inhalant. Certain groups of foods, such as fish, eggs and cereal grains, produced reactions very frequently. Milk and citrus foods also produced reaction. Chocolate, which has always been regarded as a frequent offender, produced reactions in only 11 per cent of the children. Milk sensitivity was only found in conjunction with other sensitivities.

Pains From Wound Matter of Situation

CHICAGO—Some individuals receive extensive wounds and feel little pain, while others with only small wounds suffer great pain. It all depends on the situation and what the wound means to the person, a Boston physician said recently.

Dr. Henry K. Beecher reported on two surveys; one among 150 men wounded at the Anzio beachhead during World War II and the other among 150 civilians undergoing various types of surgery.

He found that men wounded in the war suffered far less pain, although most of their wounds were more serious than the "surgical wounds" of the civilians. The lessened pain was attributed to the fact that the soldiers viewed their wounds as "good fortune" since they would be delivered from an area of "desperate anxiety."

High Lake

LIMA, Peru—Lake Titicaca, 12,500 feet above sea level and located between Peru and Bolivia, is the highest navigable body of water in the world. It is reputed to hold an immense solid gold chain the Incas hid from the Spaniards.

Difficult Reading May Cause Tension Among School-Age

NEW YORK—Recent tests have convinced a group of scientists that nervous tension caused by difficult reading assignments can have a decided effect upon vision among school-age children.

Certain grade school pupils were given four reading tasks—one a year below their grade level, one at their grade level, one a year ahead, and one two years ahead. The reading material was placed on a music stand in front of each child, and a special movie camera took a picture of the child every second. When the films were developed, they provided a record of the nervous movements made at each task level.

It was found that definite signs of tension, such as shuffling the feet and running the fingers through the hair, increased in direct proportion to the difficulty of the task. Furthermore, some of the youngsters moved closer and closer to the page as the reading grew harder. The ones who made this "near-sighted" motion also showed the most restlessness at all task levels.

These youngsters were assumed to be the serious students who put themselves most strenuously into their work. They were given further tests, with head rests which made it impossible for them to get closer to the page. An eyesight specialist peered into their eyes through a retinoscope then, as they read, and noted that their lenses were making the adjustment to the reading distance which the lens of nearsighted eyes ordinarily make.

Since the seeing habits formed in early years are likely to carry on through adult life, specialists recommend that careful attention be given to the reading habits of school-age children.

Tourists Often Have 'Complex'

NEW YORK—When driving out of their home state, a great many American motorists suffer from a "persecution complex," William J. Toth, safety specialist with the nationwide "Slow Down and Live" campaign, believes.

Specifically, Toth says that many motorists feel that enforcement officers would rather ticket an out-of-state driver than one of the local taxpayers.

"But the truth of the matter," he declares, "is that in all to many areas, police are entirely too easy on out-of-state motorists who are caught violating a traffic law. There are a lot of reasons why this is so. There may be a difference in the laws of the motorist's home and the state in which the violation was committed which may tend to make the officer over-lenient. Or simply processing an out-of-stater may be so involved that the officer would rather not get mixed up in it. Or again, the officer may have some 'booster' blood in him and not wish to discourage out-of-state visitors."

Tornado Toll Declined In Recent Decades

NEW YORK—Over the years loss of life as a result of tornadoes has varied considerably depending, of course, on the intensity of the storms. But there has been a general tendency for the toll to decrease from one decade to another in the last 40 years.

United States Weather Bureau records (see table) show that the toll for the last decade is about 40 per cent less than that for 1916-1925. The last decade shows the smallest number of deaths—1,754—despite the heavy toll of 616 lives resulting from the tornadoes of 1953—one of the largest for any year on record.

According to the Weather Bureau, at least 3,000 tornadoes have struck the United States in the last 10 years, but fortunately in only a few instances was the number of deaths appreciable.

Whale's Tooth Symbol Of Rank in Hawaii

HONOLULU—In Hawaii's early days the floral necklaces, leis, which are symbols of love and friendship, were usually made of the orange ilima flower, the feathery red ohia, malle leaves or ferns. But they were made also of carved shells, yellow fruits of the pandanus tree, bears carved from walrus tusks, and bright feathers. The most treasured ornament, worn only by persons of high rank, was a whale's tooth. Carved in the form of a hook, it was hung on many fine strings of braided human hair.

Swimming Pool

DENVER—Now on the market is a kit containing the essentials for a plastic swimming pool 15 feet wide, 30 feet long, and ranging in depth from 3 to 7 feet. The cost of the pool, including installation, is said to be less than the price of most automobiles.

OUT ON A LIMB

By Stumpy McCulloch

Have you heard about the three dead fellers who was ridin' the train to London?

"What station is this?" asked the first.

"Wembley," said the guard.

"Heavens," said the second feller, "I thought it was Thursday."

"Soam I," said the third. "Let's all have a drink!"

Up till a few years ago, the Zuni Indians of New Mexico managed to eke out a slender living by selling jewelry to tourists, and by farming their desert land. But they barely earned enough to live on.

Then somebody had a great idea: How about sending some of these strong, able fellers to forestry school to learn the techniques of scientific firefighting?

They did—and today the Zunis are called the world's greatest firefighters. Whenever a big fire breaks out in the West, chances are good that somebody'll put in a long distance phone call to Zuni, New Mexico—and as many as a hundred Zuni firefighters will take off by plane to take part in the fight. Because of their strength and endurance, the Zunis have solved a big problem for the Forest Service. And because it provides them with additional income, the work has helped the Zunis, too. Recently these brave people who have saved so many acres of Western forests were honored during McCulloch Motors' tenth anniversary celebration.

I just saw some interesting figures. Out of America's 460,000 acres of commercial forest land, about 30 per cent is owned by farmers, 19 per cent by Federal government, 8 per cent by the lumber industry, and the rest by state and local governments, the pulp and paper industry, and other people. This shows, I reckon, the importance of tree farmers in the growth of America's lumber!

Centuries in the future, a grove of giant Sequoia trees may rise on Mount San Jacinto out in California, thanks to the work of a feller named Doctor Marion Null. Doctor Null raises Sequoia seedlings, and gives them away to any neighbors who'll agree to plant and care for them. So far, he's given away 10,000, and is currently growin' 4000 more. Sounds like a mighty fine idea to me!

WHY did the Republican Governor approve a 2 million Dollar increase in Hodge's Budget?

ELECT RICHARD B. AUSTIN DEMOCRATIC CANDIDATE for GOVERNOR

SMASH CORRUPTION RESTORE INTEGRITY to STATE GOVERNMENT

NOTICE OF SPECIAL ELECTION
Notice is hereby given that on Saturday, the 3rd day of November, 1956, an election will be held in School District Number 35, Lake County, Illinois, for the purpose of electing a Board of Education to consist of seven members.

For the purpose of this election, said entire School District shall constitute a single election precinct, and the polling place for said election is the Channel Lake School, located on Lake Avenue approximately ¼ mile North of Route 173, in said School District.

The polls will be opened at Twelve O'Clock Noon and closed at Nine P. M., Central Standard Time, of the same day.

Dated this 3rd day of October, 1956.

(Signed) W. C. PETTY
County Superintendent of Schools

LOSE UGLY FAT IN TEN DAYS OR MONEY BACK

If you are overweight, here is the first really thrilling news to come along in years. A new & convenient way to get rid of extra pounds as easy as butter, so you can be as slim and trim as you want. This slim and trim as you want. Because new product called DIATRON curbs both hunger & appetite. No drugs, no diet, no exercise. Absolutely harmless. When you take DIATRON, you still enjoy your meals, still eat the foods you like but you simply don't have the urge for extra portions and automatically your weight must come down. Because as your doctor will tell you, when you eat less, you weigh less. Excess weight endangers your heart, kidneys. So no matter what you have tried before, get DIATRON and prove to yourself what it can do. Reeves Drug Store - 901 Main St. Mail orders filled.

Deep Lake

Mrs. Millie Luehr, Correspondent
Eliot 6-4946

On Wednesday, Oct. 3, eleven women made cancer dressings at the home of Lois Olsen.

On Friday, Oct. 5, Mrs. Millie Luehr accompanied Bennie Feldman to Chicago to visit his wife, Carrie, at the Passavant hospital, where she underwent an eye operation. On their way home they visited his brother Julius and then Bennie was a dinner guest of Mr. and Mrs. Frank Luehr. Later callers were Mr. and Mrs. S. Olson, Loon Lake, and on Sunday Mr. Feldman dropped in for dinner. Other callers were Sally Groot, Ed Eckoff, Helen Vos and Ragnar Johnson.

Mr. and Mrs. Carl Larson, Crooked Lake, were dinner guests of Edna Stevens. The occasion was Harry Cochran's birthday.

Mr. Russ is at St. Therese hospital for surgery.

Happy birthday to Jessie Schultz, Oct. 10.

Vi Winstad, Ronnie Sanders and Lee Stollenwerk helped Myrtle Weismantel celebrate her birthday at a bit of Sweden.

The Ladies' Auxiliary is having a membership drive. Those wishing to join may do so now.

Friday, Oct. 12, the Ladies' Auxiliary will meet at the home of Edna Stevens.

On Oct. 20 the Deep Lake Improvement association will hold its annual meeting at Henning Johnson's. Smorgasbord will be served.

Mr. and Mrs. Carl Larson and Mr. and Mrs. Frank Luehr were guests of Mr. and Mrs. Harold Severson last Saturday night on Petite lake.

HEALTH TALK

Bronchial Asthma

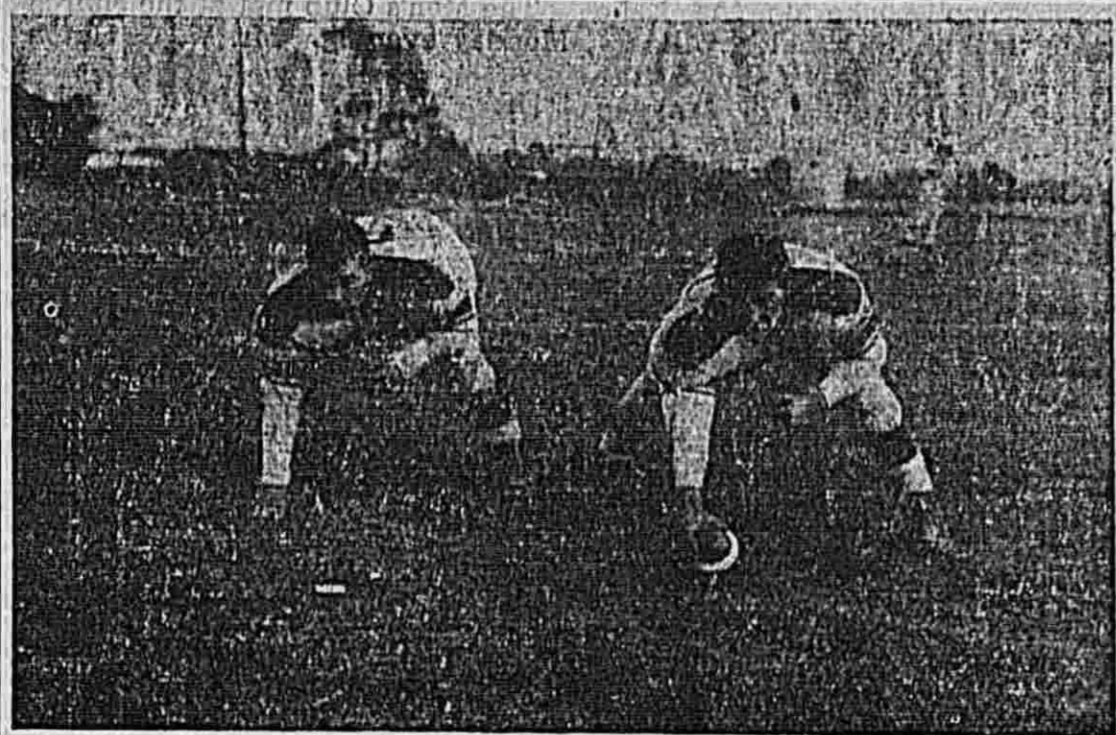

Asthma is a broad term meaning any condition in which wheezing occurs but bronchial asthma is almost certainly an allergic condition, the Educational Committee of the Illinois State Medical Society observes in Health Talk.

In bronchial asthma the symptoms are wheezing, shortness of breath and cough. As in any form of allergy, the sufferer has usually inhaled or eaten certain substances which are harmless to the majority of persons, but which produce great distress in those individuals sensitive or allergic to them.

In many persons, it is difficult to lie down during an attack; they resort to all procedures, such as sitting up all night long in a chair or leaning forward on a table to help them breathe more easily.

The wheezing associated with bronchial asthma varies with different patients. Sometimes the wheeze is very quiet and can be heard only with a stethoscope. Sometimes it is so loud that the

Regulars in the A.T.H.S. Football Line

Frank Savesta, left and Jim Lystlund, right, are two of the regulars in the Sequoit varsity lineup this fall. Savesta is a junior, weighing 215 pounds, and plays at the guard position. He started in freshman football, played on the sophomore team last year and gained a regular berth on the varsity this year. Lystlund, a senior, got a bad start, breaking his leg while playing freshman football, but played on the sophomore team, and played on the varsity last year at guard. This year he was moved to center.

sound can be heard clear across the room and even in the next room.

The wheezing occurs when the victim attempts to get the air out of the lungs. In a person with a chronic bronchial asthma, an X-ray film of the chest will show that the diaphragm is pushed down from its normal position and the ribs will have a straight character, instead of the normal curved formation. This change develops because the sufferer is using all the muscles he has to push out the air which has become trapped in the breathing apparatus of the chest. Very often this action produces another condition which is called emphysema.

Bronchial asthma is also characterized by the history of other allergic conditions, either in the patient's family, indicating heredity to be a factor in at least sixty per cent of the cases. That is why children of allergic parents should be watched very carefully from the day of birth. Each new food should be given one at a time to learn whether the baby tolerates it.

A skin test is the usual method of establishing the culprit causing bronchial asthma. The skin is scratched with fine lines, ordinarily a number of rows are made. The site may be either the forearm or the back, while in children it may be either the chest or the abdomen. Only the outer layer of the skin is scratched and no blood is drawn. Materials, both in liquid and solid form, are then applied to the scratches. If positive, a sort of hive formation will result. Then, if necessary, an injection procedure may be used to obtain more information.

Persons inclined to wheeze, be short of breath and cough should be suspicious of asthma. If a diagnosis has been definitely established, they should avoid any-

thing that causes an attack, such as certain face powders, cats, dogs, horses and certain food. Dust should be avoided. In house cleaning a good vacuum cleaner with attachments should be used, and sweeping and dusting should be avoided. Whisk brooms only shift the dust from one place to another.

Best results in asthma occur when the cause is found and then avoided. If the cause cannot be entirely avoided, the patient can be given injections of an extract of the offending substance to help him build up a resistance to it.

This is where Tomorrow starts!

New Ford Station Wagon

New Fairlane 500 Club Sedan

After today, American cars will never be the same again.
For the Big New Kind of Ford is a brilliant new automotive package—the one fine car in the low-price field!

We've unwrapped the 1957 Fords!
They're the best Fords of our lives.

The power is new—with Silver Anniversary V-8's to fit every horsepower need.

The style is new—a revolutionary, sharp, brilliant, clear-cut design that will stand out in traffic.

The comfort is new—a rock-solid velvet-road ride.

The braking is positive—silky smooth when your toe says "whoa." The steering is light and firm.

This is a great automobile, from the large honest dial faces on the instrument panel to the effortless loafing way it cruises.

The new Ford begins with the "Inner Ford." Its new elegance comes from within, from the way its automotive muscles are put together. All the changes are toward more rugged endurance, toward increased power,

toward smoother operation. These are the bases for its "Mark of Tomorrow" elegance. This is the one fine car in the low-price field.

There are actually 19 different new kinds of Ford—and no matter which one you choose, it's yours at low Ford prices!

How does it look? It's only fourteen hands high—as tall as a child's pony. You can stand beside it and lean your elbows on its roof. And it's over seventeen feet long... 21 inches wider than it is high!

This big new Ford looks like the fun on a travel poster. It's the kind of car that looks sunshiny in the rain.

It looks as fresh as morning. It looks like tomorrow—like the first thing out of Detroit that symbolizes the new Age of Movement.

See it at your Ford Dealer's. Give it your own Action Test. But you'd better leave a deposit... for you won't want to bring it back.

The Big New Kind of Ford Comes In 19 Models

New Fairlane Club Sedan

New Custom 300 Fordor Sedan

In all models you have your choice of engines, either the great Mileage Maker Six or one of the new Silver Anniversary Ford V-8's. You'll have no trouble choosing Ford—but you'll have trouble choosing which Ford! Six or V-8, the going is great!

*A special 270-hp Thunderbird 312 Super V-8 engine available at extra cost. Also, extra-high-performance Thunderbird 312 Super V-8 delivering up to 285 hp.

See the new kind of Ford for '57

COUNTY ZONING NOTICE

STATE OF ILLINOIS)
COUNTY OF LAKE) ss.

TO WHOM IT MAY CONCERN:

PUBLIC NOTICE is hereby given to all persons in the Town of Antioch, Lake County, Illinois, that a public hearing will be held on October 29, 1956, at 1:30 P. M., in the Village Hall, Antioch, Illinois, relative to a proposal to vary the terms of the Lake County Zoning Ordinance, or to reclassify by amendment thereto, from the R-Farming District, to the B-1 Business District, the following described real estate, to-wit:

That part of the Southwest Quarter of Section 13, Twp 46 N., R. 10 East of the 3rd P. M., described as follows:

to-wit: Commencing at the Southwest corner of the said Quarter Section and running thence North along the West line of the said Quarter Section 664.16 feet to place of beginning; thence East parallel to the South line of said 1/4 1/4 Section, 591.27 feet more or less to the center line of U. S. Route 45; thence Southerly, along the center of U. S. Route 45, a distance of 168.25 feet, more or less, to a point on the said center line which is 408.04 feet North of the South line of said Quarter Quarter Section (measured along a line parallel to the West

line of the said Quarter Quarter Section); thence west, parallel to the South line of the said Quarter Quarter Section, thence North along the West line of said Quarter Quarter Section, 166.12 feet to the place of beginning in Lake County, Illinois.

As a result of the petition of GEORGE KOVACEVICH and CLARA KOVACEVICH, which petition is on file and available for examination in the office of the below named board, Court House, Waukegan, Illinois.

All persons interested are invited to attend said hearing and be heard. LAKE COUNTY ZONING BOARD OF APPEALS

EARL H. KANE, Chairman
Dated at Waukegan, Illinois, this 11th day of October, 1956.

HERE'S TODAY'S TIP from Johnny Hartford, your Junior Fire Marshal

If you haven't planned how you would escape from each room of your house in the event of fire, do it tonight. A short conference with the family tonight may save your life tomorrow. Remember: More than 11,000 people died as the result of fire in 1955.

Independence is the Key!

Of course any Insurance Agent or Broker should be qualified; Insurance is not a simple business. Yet there is another very important quality — independence. The INDEPENDENT Agent or Broker represents you, rather than playing the role of a sales "employee" of any one company. Being INDEPENDENT, he can place your insurance program in any one or more capital stock companies. But make no mistake — he's working for you!

Antioch, Ill.

To be continued?

End this drudgery

with an Electric dryer....the kind that's
fully automatic, fume-free, fast and thrifty!

A friend of ours calls her electric dryer "automatic sunshine" because electric heat is so bright and radiant.

You can wash when you want to and be sure your clothes will dry soft, sweet-smelling every time. No fumes, no dried-in-the-basement odor.

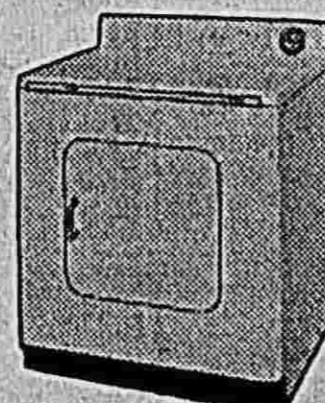

All electric dryers are fully automatic and give you the

driest heat there is. You can do a load of cottons in 25 to 30 minutes. (Takes only 6¢ worth of electricity!)

You'll notice that all the "no-vent" dryers are electric. Heat, lint and moisture just disappear down the drain.

Isn't it time you took a look at the new automatic electric dryers?

Electric Dryer Demonstrations—14 New Models
Daily 9-5. Electric Living Institute 68 W. Adams.
See them all, then see your electric appliance dealer.

Need new wiring to install your dryer? Ask your dealer about our Share-the-Cost Plan. It's the low-cost way to get the modern 100-amp home wiring you need for today's electric living appliances. The Plan is available to qualified home owners on terms up to 2 years.

If you own an electric range, you save up to \$25 on a new dryer! In fact if you have any 240-volt appliance, your home probably has modern wiring already. This means the complete, installed price of your new electric dryer will be less than any other kind.

Just 6¢ will dry a big load
—electrically!
